2019
LIVEJAM FOUNDATION
ANNUAL REPORT

Dear Friend,

Greetings in the precious name of Jesus Christ! We thank God, for your support and partnership with LiveJam is advancing the message of the Gospel to the Urban Youth in India and around the world! 2019 has been an incredible year of Explosion—where we have witnessed God moving on our behalf among young lives across India. **As our partners, you have reached 1 Million young lives in 2019 with the Gospel and it's Truths.** Your prayer and support also helped engage close to 100,000 youth with the Gospel, training them in how to take the mandate of the Great Commission into their neighbourhood. Stories and numbers follow in the pages ahead.

And last, I want to give you the promise for this year. **2020 is the year of the Exponential!** Deuteronomy 1:11 says, 'May the Lord, the God of your ancestors, increase you a 1000 times and bless you as he has promised!. So how do we get to 1000x?

Exponential Vision: 20/20 is about perfect vision! A man without a vision is a man without a future. A.R. Bernard says, 'Vision is the willingness to break out of the confines created by the past.' I pray that this season God would open your eyes like Hagar and Elijah to see things you have never seen before!

Exponential Environments: Don't let your environment stifle your growth. Find your people who will help you move to the next level! A Koi fish in a small fish tank is 3 inches long, but the same fish in a river grows upto 30 inches!

Exponential Thinking: 'Set your minds on things above, not on earthly things.' (Col. 3.2) As God changes your thoughts & ideas, your exponential season requires you to declare & speak out in faith those new thoughts! I challenge you to 'voice-activate' your faith by declarations of the Word!
Get ready! This is the Season of the Exponential!

Shalom!

2019: THE YEAR OF EXPLOSION!

'I had my questions about God. Though I had heard about Christianity, I doubted if I truly belonged to God. And if that was so, then why was I born into another faith? I had a lot of questions. But after listening to the story that was shared today, I heard something which moved me from the inside, a voice saying "Go, go to Christ for He is your home." So from now on I'm gonna remain in Christ!'

HERETOHEAR

Did you know that 1 in 4 youth are depressed? Every hour one student commits suicide. HereToHear is a movement that provides free, emotional support to these youth via online chat. So that they know that we are HereToHear them.

Our goal via HereToHear is to equip 100,000 Listeners for 1 Million conversations. Sometimes, someone you can talk to is all you need.

We've had an incredible reach of way over 300,000 individuals who we've supported and helped through 2019 and we aim to give more and more help going forward to those who need it.

DEVANG'S STORY

Devang Vishnu's story with LiveJam began in March 2019 when he was a participant at a unique youth outreach event we hosted, 'Ae Zindagi Gale Laga Le'. This was an Open Mic conducted to reach out to Gen Z youth in the city of New Delhi to provide them with a platform to creatively demonstrate or engage with the issues of Depression and Mental Health.

From a crowd of close to 40 participants and 150-odd audience, 19-year-old Devang performed 1 original composition of poetry.

Devang has been struggling with the issue of clinical depression for close to 4-5 years and is currently also seeking therapy for the same. He comes from a Hindu/non-Christian faith background and while he has enjoyed the support of his family regarding his therapy, he was desperately seeking a safe community and a perspective to his questions on faith and emotional & mental health.

In his personal words, 'Using music, media and true success stories to create that effect, it's all that those hopeless people need. We all know about miraculous testimonies of people being healed all around the world through music and real life success stories. LiveJam is doing what is the need of the hour. Reaching out to kids in high schools, giving them a sense of hope and purpose, speaking life over them, making sure that they start loving themselves the way God loves them is what they've been doing for all these years. The music and stories that kids hear creates an effect in their hearts where they can vociferously say "NO" to being a victim of their feelings, emotions and situations and can start making powerful choices towards their betterment. The sessions that they conduct in schools help kids to be educated about these crucial things about life and lets them feel less isolated with their problem.'

'They speak hope and fidelity to make sure that kids open up, which is the first step towards walking out of this vicious haunting tunnel of mental suffering. This is extremely important. I cannot accentuate this more. Because of the stigma and taboo that is associated to mental illnesses, people choose to be reticent and suffer in silence rather than opening up. LiveJam makes sure that this doesn't happen. They try their best to the consummate levels to ensure that people open up. Their chatting interface on their website is the best way where people can open up , even anonymously, if they don't want to share their information. And people at LiveJam are always there to listen and help. Their other events like Saturday Leagues and Open Mics are not only about providing people ways to have a good time but more importantly to let people feel sense of community where they can share their problems and reach out for help or to help others who are in need of it...'

Currently, Devang is being mentored by our staff in New Delhi besides continuing to be an active champion for LiveJam for our events & initiatives.
