**Breakthrough Leadership** is new for 2018 and is where I share my inside track on what it takes to create *Next Level Success*. It's based on 20 years hands-on experience as coach and consultant to some of the most successful leaders on the planet, as well as the most brilliant life and career transforming strategies I've found and road-tested along the way. If you've settled for mediocrity then this aint for you. But if you know deep-down there's more to come - that the world's not yet seen what you're truly capable of - then Breakthrough Leadership will be your turning point.

### **Breakthrough Self Awareness**

Where do you start as a Breakthrough Leader? It starts with YOU. Who you are and how you show-up is the single most powerful tool you have. I've developed 3 killer questions (*self awareness rocket fuel*) you gotta start finding answers to if you want to step it up.

### **Breakthrough Mind-Set**

How do the world's greatest leaders and innovators come up with game-changing breakthroughs? The truth will surprise you - its got a lot less to do with their planet-size brains than you might think. Discover the 9 things you can put into practice tomorrow to start attracting game-changing 'lucky breaks'.

### **Breakthrough Followers**

'If you want to go fast go alone; if you want to go far go together'. If you want to create and sustain success you need to boost your relationship intelligence. There are different intensities of followership; learn what's what, what you need, and how to turn the dial.

### **Managing**

*Making happen what's supposed to happen anyway*

### **Leading**

*Making happen what isn't going to happen anyway*

### **In-house Formats:**

Book Breakthrough Leadership as an inspiring keynote slot at your conference or bitesize lunchtime session. The benefits increase if you book it as a 1 day skill-building workshop. Or, for the ultimate payoff, combine the 1 day workshop with 3 follow-up Action Learning Set meetings for participants.

### **On being fulfilled...**

Most of us are only part-filled; operating at about 50% of what's possible. Your journey to becoming a Breakthrough Leader is about being more fully-filled. And its not always about adding more. Unlearning habits and the myriad ways we sabotage ourselves is key to a more fulfilled life and career.
