Integer 32 has a figure of 2, and when it is added to another unit, 5, the amount will be 7. However, we have dozens of figures 3, which means we have to add 30 to our previous total of 7 (30'7). This brings us to our answer, which is 37. You can help us by revising, improving and updating this response. Updating this response Once you claim the answer you will have 24 hours to send in the project. The editor will review the view and either publish your view or provide feedback. Next answer Initial-level Score - Multiple Choice - Page xxxviii: 2 Remember the slope equals the ascent over mileage. For every two graphics goes up, it goes one to the right, so the slope is 2. All equations listed as answers are in the form of y'mx'b. D is the only answer where m, slope, more than 2, so we find that D must be the right answer and therefore do not have to even consider a u-interception.
