ia32 dpkg: error processing package linux-image-generic (--configure): package is in a very bad inconsistent state; you should reinstall it before attempting configuration i dont' have an 'unattended-upgrades' option oh I see either log in as a guest user or try another supported release !eolupgrade End-Of-Life is when security updates and support for an Ubuntu release stop. Make sure to update Ubuntu before it goes EOL so you get updates promptly for newly-discovered security vulnerabilities. See and for more info. Looking to upgrade from an EOL release? See I don't see that link I am on 18.04.4 kevinfong: what's the output of:
cat /proc/version /proc/cmdline /etc/os-release | nc termbin.com 9999 # No tty present and no askpass program is available.
