Create an assembly order
In you know how to read an assembly order? Why use a browser window when you can get an build in a live in-game overlay? Get an advisor on assembling spawning tools! I mentioned the new Double Reaper refinery opening in my last three TvT articles, and quite a few of you asked me about it. This post discusses the discovery. Continue reading TvT: The new double refinery Reaper Opening
ByuN is well known for its micro and emotions, but rarely for its unique ability to create paradigm shift builds. This post discusses three builds that challenged our assumptions. Continue reading ByuN Revolutionary builds the GSL final between TY and Maru last week was one of the best finals I've watched. This post discusses some of the highlights of the series. Continue reading TvT: Review 2020 GSL Season 3 Finale
Maru goes against TY in the upcoming GSL final. This post discusses the common framework Maru uses in tvT match up. Continue reading TvT: Maru Frames There Were Many Terran matches lately. These games provide a good snapshot of current trends. Continue reading TvT: Update current trends hey guys, I haven't done any manuals at the time, so I figured out to just start 2020 strong with Terran vs. Protoss guide :)I was trying to choose a build that's suitable for all leagues and and and Build that you can play in the Golden League or Grandmaster League. There are many variations of this build (hells, banshees, etc.) but I went with the most standard. You can change it once you get to the top leagues. I go through every single thing I could think of, so if I missed anything feel free to ask here or in the YouTube comments! If enough people are interested I'll make Terran vs. Terrans and Terrans vs. zerg leadership too. Link: 2020, wish you guys all the best :)
