01 for free right now. "AcDSee .01 is the first step in our plan to transform ACD from a product primarily for photographers to a complete software suite for anyone who wants to unleash their creativity and creativity of others," says Geert De Vos, director of product management at ACD Systems. "ACDSee .01 is just the beginning. We have plans for other product updates in 2009." In other ACD news, ACDScape Pro is still getting rave reviews. ACD Scape Pro .01 went live recently, allowing users to view, edit, create, and share image files in a completely new way. As the lead-in to the launch of AcDSee .01, ACD Scape Pro .01 is currently on sale for \$29.99 per serial number / license key. This is actually a big savings from the normal price of \$79.99. An important note for purchasers of ACDSee .01: the product key/serial number from the product page must match the serial number / license key you received in the confirmation e-mail. If the serial numbers do not match, you will receive a refund for the non-ACDSee .01 portion of your order. "The success of AcDSee .01 is a testament to the power of our customers," says De Vos. "The feedback we are getting from users is that this is a product that is transforming the way people work with digital images." case 'z': line.add(String.format("%d%s", i, "~")); line.add(String.format("%s", chars[i])); break; case 't': line.add(String.format("%s", chars[i 520fdb1ae7
