With the release of the new Downloadable content in Forsaken, Destiny 2 has ushered in its second year of content, bringing a new story, new classes and tons of new items to the game. On top of this, Bungie has also brought back the ever-popular Wanted Bounties that many enjoyed in the first game, including the new Wanted: Metal Captain bounty. Some of these bounties can be confusing, so today we will show you how to complete wanted: Metal Captain bounty in Destiny 2, which takes you to Drain Lost Sector, located in EDZ. To complete this bounty, you must get to EDZ. Spawn in trostland and jump on your sparrow. From here, head out to the left and take you to the outskirts. You'll find three lost sectors in this region of EDZ, although the lost sector that you need to find is The Drain. To find it easily, go towards the center of the map and look for the bridge over the river - near where the Servitor Public Event spawns in this area. Go into the lost sector and get through it. There is only one way for you to go, so just keep on until you get to the end of the area, where you come across several rooms completely full of fallen enemies. Among these enemies you should see Metal Captain, a yellow bar enemy. It shouldn't be so hard to take him down - it shouldn't be harder than defeating any other yellow bar enemy in the game - although it will make it a little easier to bring some friends on the journey. After you defeat the metal captain, complete the bounty so you can turn it in. These involve exploring lost sectors, patrol rooms and even adventures to complete them, resulting in legendary and powerful Gear rewards - and even the chance to collect Lord of Wolves Exotic. First they must be purchased with Ghost Fragments; some are a single fragment, while others cost a handful. Some Wanted Bounties are also fenced off your level, so if you just start playing Forsaken, you may need to play before they are unlocked. Each Wanted Bounty points you in the direction of an escaped prisoner, who has fled across the solar system. Each one will tell you where they are - whether it's The Pit or Excavation Site XII. Almost all of these are in Lost Sector locations, with the respective prisoner replacing the end-boss in each area. As soon as the prisoner is defeated, Wanted Bounty is complete - but make sure you also open the cache at the end to get some extra loot. You must then redeem the wild bounty manually. Not all Wanted Bounties are linked to Lost Sectors - the more expensive Wanted Bounties have different requirements, while the latest on the list is actually a challenging adventure that rewards you with lucrative Powerful Gear.
