

Surf Life Saving Central Coast and RESINC Solar exciting new partnership!

Rookie Lifesavers will be out in force this season supporting their clubs surf patrols while developing their own skills and being mentored to become fully qualified patrolling lifesavers.

Thanks to the generous support from Surf Life Saving Central Coast's new sponsor, RESINC Solar, over 400 Rookie Lifesavers from the 15 Central Coast surf clubs will be outfitted with new patrol uniforms and a revamped mentoring program to help develop local surf clubs future Lifesavers.

The Rookie Lifesaver Program is a successful tool to retain junior surf lifesaving members between 13-15 years of age with lifesaving and personal development skills under the supervision of experienced patrol mentors.

The new sponsorship with RESINC Solar will help Surf Life Saving develop, train and mentor Surf Life Saving's youth Lifesavers, leading to sustainable beach patrols, safer beaches and stronger coastal communities.

SLSCC President, Stuart Harvey, said "Over the years the Rookies have saved many lives and these range from big sea rescues, assistance to resuscitation cases and many successful rescues to swimmers in danger. The skills the rookies learn will stand them in good stead in life whilst at the same time ensuring the future strength of our surf clubs."

"Each season we are amazed to hear the heroic rescues made by these capable young lifesavers in training. RESINC Solar can be proud of supporting this unique program as it is contributing directly to the saving of lives on the Central Coast beaches," said Harvey.

Leigh Storr, CEO of the RESINC Group said it was a privilege to support such meaningful program.

"RESINC Solar is proud to become the new sponsor of Surf Life Saving Central Coast and the 15 local surf clubs who provide such an integral volunteer service to the Central Coast community. This program teaches the youth involved many life skills as well as developing them into good community citizens and we are proud to contribute towards these outcomes that make a difference to these kids' lives."

In addition to directly supporting the Central Coast's youth lifesavers through their sponsorship of the Rookie Lifesaver Program, RESINC Solar is committed to supporting local surf clubs with the installation of solar projects contributing \$1,000 towards surf club solar projects for every installation completed on the Central Coast this summer.
