

FREE Florida Department of Health Courses for Youth Tobacco and Vaping Infractions

- Courses are 100% FREE to districts
- 100% online program
- Sponsored by the Florida Department of Health
- Flexibility for district implementation
- Grade appropriate content for Middle and High School Students
- Designed as an alternative-to-suspension
- Administrator and student receive certificate of completion or notice of withdrawal
- Dedicated team to handle all technical issues

Note: These courses are not intended for use as a smoking cessation tool nor for use in meeting the substance abuse education requirement.

What do students say about the courses?

"I learned that vaping damages your body more than you think."

"I knew that it was bad for me before I started vaping, but I learned about 3rd hand smoke and that really scares me because I don't want to hurt the people around me with my own bad choices."

What do administrators say about the courses?

"Parents are appreciative of the opportunity for their children to participate in the course as an alternative to suspension."

"The certificates are GREAT! Shout out to your folks working behind the scene to withdraw and assist with re-enrolling. Incredibly quick and helpful response."
