It's a sequel to the 1999 film The Mummy. Based on the frame of the film, a 26-part animated series The Mummy was created – The Mystery of the Mummy. Plot 3067 BC, King Scorpio, obsessive warrior, moves to conquer the world. After a seven-year battle, he is defeated and driven with his army into the sacred desert of Ahma Sher. All his men die one by one on the way there. Finally, as the last survivor, he offers Anubis a pact: God must give him life and victory over his enemies and get his soul in return. Anubis accepts the pact, sending him a scorpion, which the king immediately consumes. A magnificent oasis is then created around the king, who is now his refuge and his home. To help him defeat his enemies, Anubis also gives him the support of his army. As expected, King Scorpio defeats all his enemies, and Anubis captures his soul and forces the king to serve him for all eternity. Anubis's army is sent back to the desert, where it silently waits. 1933. Rick and Evelyn O'Connell, protagonists from Mummy, have since married and have a child with now eight-year-old Alexander. During excavations at the temple in the Tedus district, Rick searches for her wet son, while Evelyn has mysterious visions telling her about her previous life. The couple finally finds an anubis bracelet in the temple's catacombs, indicating a path to the resting place of the scorpion king. Around the same time, the mysterious Mela Nays, Ank-Su-Namuns and a horde of mercenaries, led by the cold-blooded Lok-ni, unearthed the sunken Hamunaptra and restored the mummy Imhotep. After learning of O'Connell's discovery and their departure to England, Mela follows the family. Meanwhile, O'Connells returned to London, where Evelyn Rick tells the story of King Scorpion and his resting place: The King of Scorpion must awaken every 5,000 years[2] and bring death and destruction to earth. But whoever wins it gains command over his almost invincible army. The pyramid in the heart of the oasis where King Scorpio is located is said to be made of pure gold. Ramses IV, Alexander the Great, Julius Caesar and Napoleon sent expeditions behind her, none of which ever returned. At the same time, Alex opens an ancient Egyptian box with a bracelet and puts it on. The bracelet closes automatically and Alex has visions of the Pyramids of Giza as well as the Temple of Carnac. When he tries to remove the bracelet, he does not get anything. So he places the worthless sculpture in the box from which he picked up the bracelet and closes it again. Mela and Locke-no then enter the property to steal the bracelet. There's a fight O'Connolly wins, but mercenaries kidnap Evelyn. Rick and his brother-in-law Jonathan arrive late, but meet Ardet Bay again, who will be on their side from now on. Alex then presents the master with the bracelet he still wears, as well as leading adventurers along the trail of Hafees, curator of the British Museum. However, Rick's offspring must learn that impersonating maturity has caused another apocalypse. In the museum's basements, Rick and Ardet testify that Hafez Imhotep was resurrected in a ritual in the presence of Lock-no, while Jonathan and Alex guard the car to escape in front of the museum. The plan of the evil becomes apparent: they want to kill King Scorpio through an immortal priest and allow him to take over the army of Anubis. At the same time, Evelyn should be sacrificed to him. The year can free Evelyn and along with Ardeet Bay defeat undiluted favourites Imhotep during a chase on a double-decker bus through the night capital. But after that Alex was kidnapped by Locke's troops, who have now learned that the boy was wearing the necessary wrist bracelet. For the Rick-led rescue force, the race starts in time as they must first bring Alex back and, second, be in front of the villains around Imhotep in the Ahma Sher oasis to derail the priest's plan. While Imhotep regains its flesh shape in a rite manner, Resurrected in the body of Mela Nays and approaching his goal with the help of Alex, Rick wants to catch up with his old pal Izzi. He possesses a quick bottom, but is horrified by Rick's gaze, as he reminds him of the painful old days. Only the golden scepter that Jonathan carries with him as a souvenir makes Izzi rethink, and the group sets out into the air and up the river towards the mysterious oasis. Ardt Bay bids farewell to form a powerful army of twelve Medjay tribes. While swimming in the bottoms, Evelyn has a vision again, this time more specifically: Evie is the reincarnation of Princess Nefertiri, the daughter of Pharaoh Sethosa I, and at the same time the protector of the bracelet. Anh-Su-Namun is a thorn in her side as she suspects her aspiring stepmom's affair with Imhotep. Soon after, as she watches the events known (from The Mummy's previous film) about her father's murder, it is she who sends Medjay to help. Rick learns that the tattoo on his right forearm, which he received in an Egyptian orphanage, marks him out as a warrior of God. Despite the huge wave that Imhotep connects with Neil, who almost brings the foundry down, O'Connell's group arrives in an oasis at the same time as the priest. It reveals the secret of the lost armies of various army history commanders: an oasis populated by murderous pygmies that immediately volume Lok-no mercenaries. At the same time, Rick, Evie and Jonathan begin a counterattack and a free Alex – also with the help of returned Ardt Bay, who knocks out Locke-No. The pygmies shuddered, and Rick manages at the last moment to take Alex to the pyramid with his bracelet – which would have killed him if he had failed. Then there are opponents and Ank-Su-Namun strikes Evelyn as Imhotep enters the pyramid. When he crosses the seal, his magical powers are taken away from him, and he must face the King of Scorprio as mortals. Hafeez has since re-energized the Anubis army, which then engages in a fierce battle with Majai, led by Ardet. Alex and Jonathan resurr the book Evelyn, which Ank-Su-Namun keeps at bay with a knife fight. Rick worries Imhotep in his ritual and engages in a battle with priest, during which Matejus awakens: King Scorpio mutated into a monster of the same name and attacks fighters. During the battle, Rick uses wall relief to determine that Jonathan's golden rod is osiris's scepter, which, turned into a spear, could kill King Scorpion. Inches So far, Rick Imhotep can snatch a spear and kill the Scorpion king, who then dissolves in black sand - as well as the Anubis army. This, however, sets in motion the self-destruction of the pyramid and thus the entire oasis. Rick is saved by Evelyn from falling into hell of a soul, while Imhotep sadly realizes that Ank-Su-Namun is not ready for such an act. He nods sadly smiling to Evelyn and Rick and finally plunges into hell with a broken heart. Ank-Su-Namun dies when he enters a pool full of poisonous scorpions. Oasis quickly sinks into the desert sand, and at the last moment Rick, Evelyn, Jonathan and Alex are rescued by Ezzy in his lydole. Jonathan even manages to pull a huge diamond from the top of the pyramid, bringing the adventure to an end and for him. Similarly, there is a running gag about the indiscriminate character from the Book of the Dead translated by the Egyptian saying. The handprints on the bathroom walls on the train feature the Sommers director. He also has a guest appearance in the film: he's the one sitting in the bathroom with Izzi. When Imhoteps resurrected the mummies chasing O'Connell's group through London, there were initially four but only three in the bus attacks. According to the Sommers director, the fourth Alex had to attack as soon as the bus stopped. The scene was removed from the script behind the director's mouth and for the sake of review. The same thing happened to the fight at O'Connells' house, which was to take place at a casino under Jonathan. The O'Connells had to live in a big apartment. In a treasure trove filled with gold, you can see an Oscar statue in the background. Rachel Weisz Nefertiri's vision character was originally called Nefertiti. However, for fear of misplaced laughter and wordygor through the title, it was eventually changed. Nefertiti is an English speaking language for Neferetetete. The name of the airship pilot Rick was obtained from the director of the dog, also called Izzi. The sun, or the light it casts, falls the wrong way in Amm Sher. It rises in the east of the boiler oasis, where the rays begin. This allows the race of O'Connel and his son. The title of the film cannot be seen in the opening titres. Hotel Eden it was not common in ancient Egypt, nor were duels between Pharaoh's fiancée and princess. Saiforki hails from Okinawa and was a melee weapon. The director said that he liked the weapon and that he allowed himself artistic freedom. The Anubis Army, the exterior of the temples, as well as Cairo and large parts of London were animated on a computer. King Scorpio was also created digitally. So only Dwayne Johnson's facial features were transferred to the figure. Mummy Returns was also released in 2001 as video games on Playstation 2 and Game Boy Color. In the game, however, the end is open: the player can choose between Rick and Imhotep as characters. If you win a game like Rick, the end of the movie will appear.
