Vex worlds 2020 virtual

The Robotics Education & Competition (REC) Foundation will host the VEX Robotics Virtual World Celebration and the first ever fantasy robotics tournament on Saturday, February 25. More than 2,300 teams from around the world competed in the virtually simulated Fantasy Robotics tournament during the VEX Robotics Competition Tower Takeover and VEX IQ Challenge Squared Away seasons. The teams saw simulation results updates throughout the celebration as they waited to see who would be unveiled as world champions, while celebrating the highlights of the season, Online Challenges winners, Inspiration All Star winners and games of the 2020-21 season. April 17, 2020 06:16 PM Eastern Daylight Time GREENVILLE, Texas--(BUSINESS WIRE)--The Robotics Education & Competition (REC) Foundation takes its annual VEX Robotics World Championship virtually this year. Although the COVID-19 outbreak forced the organization to cancel this year's personal event, the REC Foundation hosted the VEX Robotics Virtual World Celebration and the first ever fantasy robotics tournament on Saturday, February 25. The virtual experience will be held on VEX Robotics' YouTube channel at 10:00 ct (VEX Robotics Competition Group) and at 11:30 ct (VEX IQ Challenge Group). All teams eligible for the 2020 VEX Robotics World Championship will participate in the simulated Fantasy Robotics tournament, where tournament winners will be recognized during the VEX Virtual Worlds Celebration. Qualifying schedules are listed here today. Even though we had to cancel the 2020 VEX Robotics World Championship due to the COVID-19 outbreak, we still plan to bring the excitement of this event to our community, said Dan Mantz, CEO of rec foundation. Nearly a million students from around the world participating in our competition have worked hard in the last season and we are excited to highlight their extraordinary achievements. We can't wait to announce our new 2020/2021 VEX IQ Challenge and VEX Robotics competition game either. This unique event replaces the REC Foundation's annual VEX Robotics World Championship, the world's largest robotics competition, attracting more than 25,000 participants from all 50 states and 50 countries. During the live event, third-grade students with custom-built robots will compete in timed, heart-tinged robotic matches. Rec Foundation's virtual VEX Robotics World Championship and Fantasy Robotics tournament is presented by the Northrop Grumman Foundation. Other global sponsors supporting the program year-round and this event include: Autodesk, Dell, Google, HEXBUG, IFI NASA, Rack Solutions, Robomatter, Tesla, Texas Instruments, Toyota, TVA, VEX Robotics, MathWorks, Microchip, UPS Nordson, what are you? About Robotics Education & Competition (REC) The Robotics Education & Competition (REC) Foundation's mission is to increase students' interest and participation in science, technology, engineering and mathematics (STEM) by engaging students in practical, affordable and sustainable robotics technology programs. About VEX Robotics VEX Robotics is a leading supplier of educational and competitive robotics products to schools, universities and robotics teams around the world. Vex IQ and VEX EDR product lines cover elementary schools, middle schools and high schools with easy-to-use, scalable and affordable robotics solutions. In addition to the principles of science and technology, the VEX Robotics project encourages teamwork, leadership and problem solving among groups. It allows teachers to easily adapt projects to match students' abilities as they inspire and prepare tomorrow's STEM problem solvers.
