

Educator Profile:

Sarita Gray,
Richmond

Kia ora, my name is Sarita. I live in the heart of Richmond with my partner Malcolm and our four lovely children, Zoe (16), Keisha (15), Tia (7) and Riley-may (2).

I am a qualified and registered early childhood educator and I have had many years' experience working in childcare centres. I am especially passionate about providing the best care and education for our under three children (with my personal philosophy being influenced by the pickler/RIE approach) I believe being in a home environment with only a small number of other children (up to four) and one primary caregiver is amazing and has many positive benefits.

I am supported by a wonderful local company called Village Kids, owned and operated by Kirstie Van Houtte. We come together to do activities with the other educators and children on a regular basis.

I provide a loving and caring environment focused on a trusting relationship with not only the child but the parents too.

At my place the children have new experiences and get to go new places. They have opportunities to develop independence and practice self-care skills. They will learn social skills and make lasting friendships.

I offer a program of activities and opportunities that allow the children to crawl, run, climb, jump, dance, sing, paint, bake, discover and much more.

I have a calm and relaxed manner and absolutely love being part of the children's lives, supporting them emotionally and physically to be their best and to grow into wonderful little people.

If you would like to come around and meet me, my family, animals and possibly a couple of the children in my care, give me a call or txt 021 266 2267. I look forward to hearing from you.
