Niles north athletics

Parents, I just wanted to keep an eye on Dr. Edwards' email regarding cancellation of Contact Days. This week would be the last week of our contact days, but due to the rising number of positive Covid cases in our area, we have been sunshine'd by Skokie's health not to risk it since contact days are simply voluntary practices. The Cross Country boys are still finishing their season this week and the rest of our Fall Sports have been able to complete their seasons. If you have participated in summer camps, autumn sports or autumn contact days, the Sports Department would like to send a thank you to our student athletes and families. First, we value your trust in us to lead our sport safely and within the guidelines of IDPH and IHSA. Secondly, we wanted to express our gratitude for the tremendous communication that each family has shown throughout this time. Safe sports during a pandemic cannot be achieved without constant communication with each family. Through your communication regarding the symptoms and potential impact of your student-athletes, we have been able to keep everyone else as safe as possible and limit potential problems. In addition, we appreciate the commitment of our student-athletes to wear masks and follow our social distancing guidelines. Please know that since we first started summer camps, we have been treating all symptoms, exposure and a positive case with paramount importance and pass all information to our Skokie Health Department. The Skokie Department of Health has been incredible in helping us plan and their medical experience is always the last challenge in determining when and if student athletes can return after symptoms, exposure, or a positive test. In situations where a covid positive student-athlete may have exposed his/her teammates, we immediately communicate with parents based on a health guide from The Skokie Health Department. Through our communication between parents and student-athletes, the help of the Skokie Health Department and the diligence of our coaches to follow the recommendations, we have successfully minimized the risks associated with sports. Compared to several schools in our district, we have had very few violations in our practice due to exposure to Covid or positive student-athlete cases. It also gives us confidence that our student-athletes are taking the virus seriously outside of athletics by making wise choices that don't jeopardize their teammates. While many things in the pandemic may be out of our control, it's great to see our athletes and coaches take care of items within their control. There will be an abundance of information coming regarding winter sports as it is available. Please look for messages on our website, emails from Dr. Edwards, and communication with our coaches. In addition, we ask that if you develop any Become exposed to someone who is a Covid positive, and/or a positive test for Covid, please contact your particular coach, athletic director, or our wonderful school nurses. You can also send any isolation/quarantine notes to our nurses by email healthofficenorth@d219.org or fax to 847-626-3375. Thanks again for supporting Niles North Athletics. We look forward to updating you soon. Sincerely, Brett Bildstein Danae Russell Athletic Director Assistant Athletic Director 11/16/2020 8:24 PM Niles North High School Skokie IL USA 60077@2018 by Niles North Athletic Booster Club. Niles North High School Skokie IL USA 60077@2018 by Niles North Athletic Booster Club. Want to play sports in Niles North? Click on the Registration button at the top. Then click on the Create account button. Follow the instructions. The parent/guardian must complete an online registration before his or her child can try. It's a quick and easy process!
