This is the Guide to Student Solutions for Accompanying Physics, 10th edition. The physics of Katnell and Johnson has been the #1 in the algebra-based physics market for nearly 20 years. Physics, the 10th edition brings on new collaborators: David Young and Shane Stadler (both from LSU). Cutnell's offer now includes advanced features and functionality. The authors were actively involved in the creation and adaptation of valuable resources for the text. The 10th edition includes 160 new Chalkboard videos, guided online tutorials in each chapter, and vector drawing questions. All of these features are designed to encourage students to stay in the WileyPLUS environment, as opposed to holding fee-for-decision websites that short-circuit the learning process. We believe that every student has the right to access quality resources, regardless of your budget. Now we are even better prepared than before to do what we do best: help teachers teach and students learn. Buying textbooks couldn't be easier! Thank you! I was very pleased with my experience ordering my tutorial, in terms of delivery time, price, ordering process and physical product. highly recommend to other students. Maddie ConroyLouise MollusoMacquarie UniversityWestern UniversityWestern The opportunity to open my tutorial on my phone and use the audio/read option was incredible very convenient for online access and you can download an app on your phone that makes learning on public transport so easy!!! Isla MartirezElise Powley Western Sydney UniversityAustralian National University Common process was simple and easy to use and buying a book was easy. This was an obvious option for someone with a tight budget and didn't want a used book that could already be damaged or other people's notes in it...
