[Continue](#)

Some people just never stop working, do they? Developer Red has just updated its Binding of Isaac Mod Converter tool to version 2.1. It's more like a bugfix/user experience to fix an update than anything else, but it's still worth reporting since we never did a full article covering the release of version 2.0 and just amended the original article. What is Isaac's Linking Fashion Transforming Kit? Linking Isaac's Fashion Transformation Kit is a tool developed by Red over on the Se7vensins forums and is a simple Windows tool (sorry, not Windows users) that allows you to convert any mod PC to isaac's Linking game: Rebirth (Bo: After Birth is not supported because it has not come out on Vita or 3DS), which is a roguelite game released on almost all gaming platforms except mobile. It's a great game and costs about \$15 on the US Playstation Store. If you're missing the basic game, guess what? Now you can even convert PC mods and use them on your console too! The requirement to use this app is that you reset your own copy of the game and extract it and then just let the program know where the GFX folder is your game and fashion so it can work its magic. Repackage the mod as a vpk and install on the console! Simple enough, isn't it? Changelog for Binding Isaac Fashion Conversion Kit 2.1 and 2.22.1- Added Sound Notifications Upon Completion - Made It More Clear When the tool works to prevent users from interrupting its work2.2- This release corrects major bugs in the program that can cause the download waiver of Isaac's Fashion Link Conversion Kit 2.2.Sour the latest version of the Bol Mod Conversion Kit just over the head of the Se7vensins release stream (or as an alternative to its GitHub) or get a download right from here. If you want to report bugs or just give Red some fame for your work, you can do so on a stream release or on Twitter @Red7s or question the tracker on his GitHub.As once I'm done with writing an article, I'm going to watch me some fashions to use with that. If you're a Fan of Bol and have been around from the beginning I recommend mod music restoration to reddit user Mr. Gaytes. I missed the original music so much and it's just a thing to scratch my itch. As usual, everyone, enjoy the release! In: Activated Elements, Renaissance Elements, Elements Share Effect Converts 2 Heart Hearts or Black Hearts in 1 Heart Container. Synergy Combined with Lapa Guppy, it can create heart containers indefinitely, maxing out at 11 (assuming you have at least 1 container or 2 Soul/Black Hearts to start the chain). Activated Elements of Rebirth Elements Community content is available under CC-BY-SA unless otherwise stated. From Isaac's Link: The Rebirth of Vicky converter is an activated element. The effects of the edit source transform two soul hearts or black hearts into a Red Heart container. Notes (edit the editing source) Using this element Black hearts activate the destructive action of the Black Hearts. Useless for ??? how it transforms two Souls/Black Hearts into one Heart of the Soul, causing pure loss. Must use with two heart-full souls for work. One and a half won't work. Using this element with The Forgotten only works when controlling the soul and converts the soul's hearts into the bones of the heart. Synergy (edited by source) Lapa Thorpey: Allows Isaac to reach 10 Red Hearts. Interaction (edit source editing) Car battery: No effect. (edit and edit source) Gallery edit source 3DS Icon Converter, as seen on the lower screen of 3DS. Trivia (edited editing source) The converter is a reference to a converter, device or system that changes the shape of something. The converter can be seen as the opposite of Gappy's paw. Where the Transformer takes two Souls or Black Hearts to form a container of the Red Heart, Lapa Gappi takes one container of the Red Heart to form the three Hearts of the Soul. In addition, their taste texts are similar. Seeds edit source PC 1TNY 7MJ0 (1st floor store, Purchase after receiving a block on the ground floor treasure room)Notes: Must be Isaac, because a bomb is needed to get the key. Pandora's box in the Curse room must be picked up before entering the Store. The converter is not available in hard seed mode due to the difficulty of getting the key to open the store. PC LGD3 W0PB (1st floor store, Purchase after receiving Store Credit as a Drop) Notes: The converter is not available on normal seed mode due to the difficulty of getting a key to open a store. Switch KEBM C08G (First Floor Store, Half Price) (Coins galore in hard mode, getting in normal mode requires bombing the store owner and using a sacrifice room) Remote user, April 26, 2018 36509 159 20 Answers: 35 Views: 16404 This is a utility for converting mods PC version of Isaac Binding for his console colleagues. To use converted mods, you need to have a modified console. I personally checked this with the Wii U, Playstation Vita, and Nintendo 3DS UPDATE: 7/10/17 With some friendly information from Isaac's SciresM Binding on Nintendo Switch uses the same file formats and structures as other consoles. So this tool should still work the same way there. Provided that you can access the game's FILE UPDATE: 11/20/18 Here are some notes that I took when making some mods an example for Nintendo Switch to help you when you're trying to convert your own fashion. There certainly can be simple fixes for them, however the converter is working well enough at the moment IMO If Would like to program the solution of these errors I will take to pull the request pocketitems.xml can not be used from mods. This cuts the game instantly. This may be able to be converted, but I have not seen the mod affected negatively, leaving this out of the room xml files may not include \_converted in them, otherwise the game will be You can't add extra rooms to the game. For example, Godmode adds a enemy\_compounds folder to the room catalog. It can't be used even with fixed XML naming, otherwise the game will crash. Looking for items after birth? Revival Elements (341) Sad Bow ItemID: 1 Tears Up - No 0.7 Tears Type: Passive Point Pool: Item Room, Room Hoard, Item Pool Room, Green, Cry, Plant Inner Eye ItemID: 2 Triple Shot - Tears Now Shoot Three at a Time (Triple Shot) Type: Passive, Tear Modifier Point Pool: Item Room, Treasure Room, Item Room Pool, Round, Circle, White Spoon Bender ItemID: 3 Homing Shots Type: Passive Point Pool: Item Room, Treasure Room, Point Pool Room, Grey, Grey, Curved Cricket Head ItemID: 4 DMG Up - 0.5 Damage Up - 50% / 1.5 Times Damage Multiplier (No Stack with Magic Mushroom Multiplier).
