Here are some important things we do for you that you should know: Free local towing (with major overhaul) Automatic - Standard Transmission Repair4WD Transmission Foreign and Internal Transmission Motor Homes TransmissionsClutch Repair So if you just need a transfer service to keep your car running smoothly or you're up to the point where you need your transmission repaired, call us. We are close to you and we have been in the same place for 20 years, which means you can trust us to be here when you need us. We are on 199th and Burnside. Advanced Transmission and Gear is owned by Steve Kisel. This service store offers repairs to most foreign and domestic automatic transmissions and transaxins. We also offer free towing with an overhaul or you can take advantage of their proximity to the MAX line, drop your car off in the morning, jump on the MAX to go there and then return later in the day. Steve will even give you a ride home if you live in the area (10 miles). Kisel and his team work hard to be the best at what they do and offer great service. Kisel says: We are almost everything; motor houses, RV, even garbage trucks! We offer a free minor adjustment diagnosis to see if your car should be designed or not. Do yourself a favor first and fill out a form in the top right right on this page to get discount coupons and a FREE report, How to choose a transfer repair shop. Sincerely, Steve KiselOwner Advanced Transmission and Gear 19959 E Burnside St. Portland, Ore. 97233 Transmission Repair is not something to take lightly. Your transmission is connected to some key parts of your car and should work properly for you and your loved ones. Most transmission services include the following: replacing filters and drainage fluids to prevent transmission damage. Typical transmission problems that can lead to repairs may include problems with moving, sliding, stalling, leaking, leaking, and turning on service light. If you think at all that you may be experiencing some transfer problems, call us today so we can take a look at your gear at Gresham Oregon.At Lomelli's Gresham radiator and auto repair in Gresham, Oregon, we pride ourselves on knowing how to serve any transmission needs you may encounter. require the use of clutch pedals and gear shifts manually to go to different gear positions, depending on the speed of the vehicle. Both front-wheel drive and rear-wheel drive are the two main configurations for manual manual in modern cars. Most of the time, the manual gearbox requires less maintenance, then automatic transmissions. At Lomelli's Gresham Radiator and Auto Repair in Gresham, Oregon, our car mechanics can diagnose your car and then recommend the transmission repair or transmission service needed to keep you or your loved ones safe on the road. Regular transmission maintenance can also help extend your car's life. The all-wheel-drive Repair A all-wheel drive (4x4) drive of the car has so-called differential gears in both the front and rear axes, as well as a transmission that is attached to the transmission. All-wheel-drive vehicles require much more maintenance on the transmission event, front differentials, rear differentials, and fluid transmissions due to the typical wear and packaging that they pass. Gresham Radiator and Auto Repair are much more than just radiators. We have a full service auto repair facility in Gresham Oregon, and here are some of what we do. Let us know how we can help! We will let You Know When It's Done GRESHAM OREGON'S TRUSTED MANUAL and AUTOMATIC At Gresham Transmission, we offer high-quality maintenance services that follow the recommendations in your owner's guide, which helps to ensure that you don't have to have an overhaul of cars in the future.
