The notion of nonlocal equation is "as old as PDE" but Stochastic partial differential equations seem to have been introduced as a formalism to allow physicists to prove results in the same manner as for SPDEs and some papers even point out that nonlocal equations can be seen as mathematical representations of the stochastic character of quantum field theory. See also Fractional calculus Aitken calculus References E.M. Stein, Singular integrals and differentiability properties of functions, Princeton, NJ: Princeton University Press 1970. A.Y. Khintchine, Einige Sätze über Kettenbrüche mit Anwendungen auf die Theorie der diophantischen Approximationen, Math. Ann. 92, 112–126 (1924). External links Category:Operator theory Category:Calculus Category:Functional analysis[The study of the physical fitness of early adolescents by the isokinetic measurement of muscular strength]. An investigation of the muscular strength of right- and left-limb was conducted using an isokinetic dynamometer (Cybex 2000) in the right anterior crural muscles of 106 male adolescents (13-14 year-old). Muscle strength was evaluated for different peak torque rates (PT) and angular velocity of movement (VM). The results showed a significant relation between the PT and VM which indicates a constant muscular resistance at different angular velocities. The main results show that in adolescents aged 13-14 years the muscle strength of right anterior crural muscles is worse compared to the left. A negative correlation between a higher BMI and muscular strength was detected.Q: How to update ListView items from another thread? I'm writing an application in which I have a TabbedPane and one of the tabs contains a ListView. When the tab is selected I want to update the ListView's items from another thread. But I'm unable to do so and have the following error: The operation is not valid at this time Here's my code for the thread that's suppose to update the ListView: private class updateListViews extends Thread { public void run() { updateList(); } private void updateList() { 520fdbae7
