今天的质量
Quality Anchored Today

明天的市场
Develop Without Delay

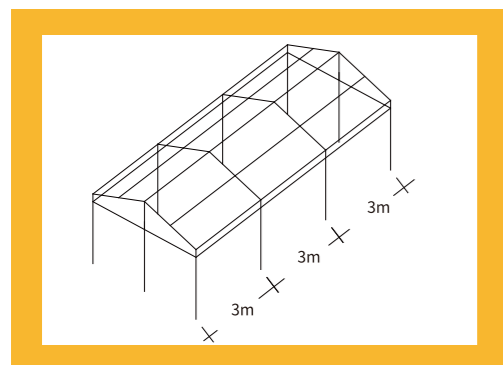

We are a leading company specializing in the design, manufacturing, sales, and service of awnings, carports, pergolas, and tents. Founded in 1997, we are committed to delivering high-quality, safe, and elegant outdoor sunshade solutions.

Our tent series products are renowned for their stability, safety, and aesthetic appeal. These fast-assembling, large-capacity structures are ideal for a wide range of applications, including exhibitions, conferences, sports venues, transportation promotions, and celebrations (such as beer festivals, food festivals, and music festivals).

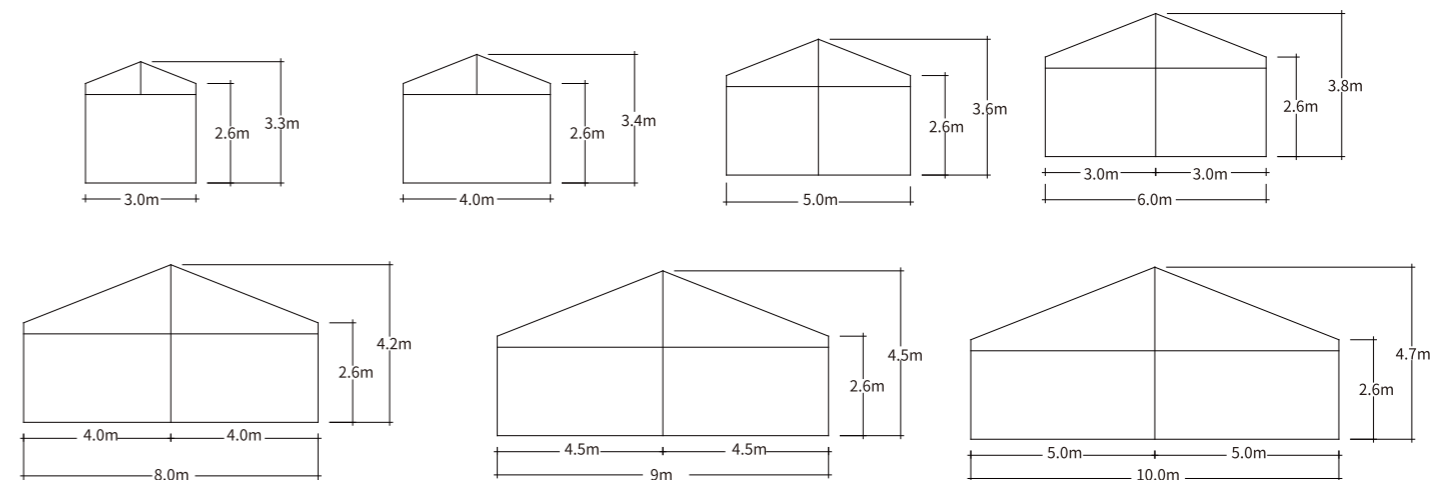

To maintain production efficiency and superior product quality, we have invested in advanced machinery, including aluminum extrusion equipment, CNC aluminum cutting and drilling machines, robotic automatic welding systems, laser cutting machines, automatic fabric cutting machines, high-frequency hot-pressing machines, and automated spraying lines.

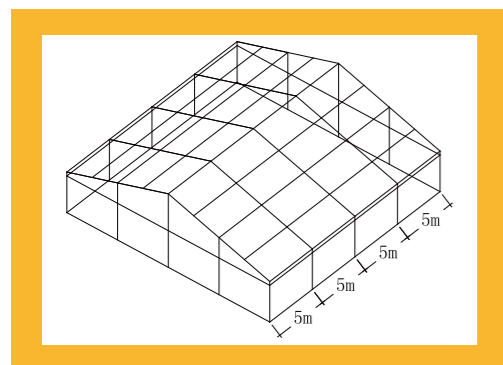

Through continuous innovation and dedicated efforts, our products have been successfully exported to over 100 countries, earning widespread recognition and appreciation from both domestic and international customers.

We will continue to uphold the principle of "Quality Anchored Today, Develop Without Delay" and welcome extensive collaborations with customers worldwide. Guided by a commitment to sincerity, trustworthiness, and mutual benefit, we look forward to partnering together to create a brighter future.

组合篷房 MIXED TENT

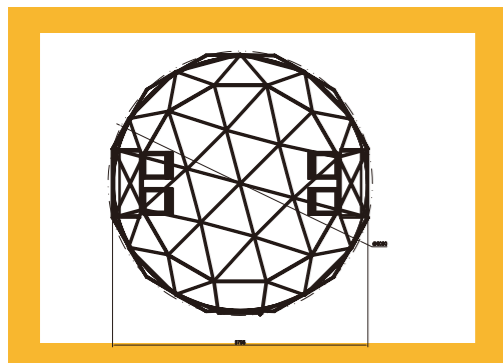

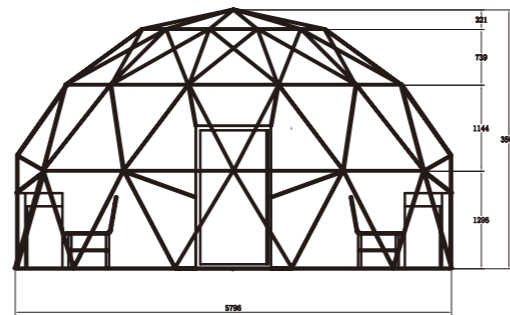

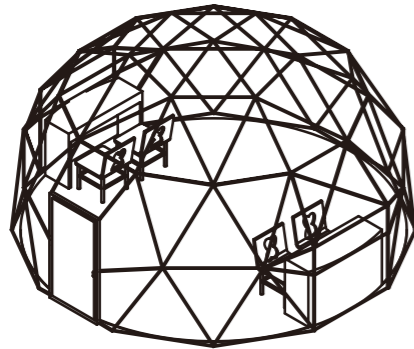

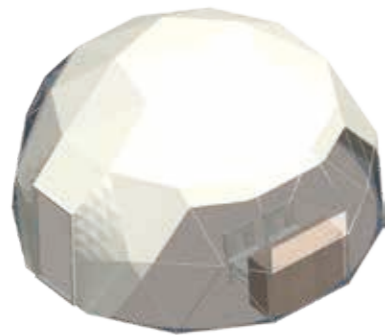

双层加高篷顶设计

- 使用空间大
- 造型独特
- 多功能用途

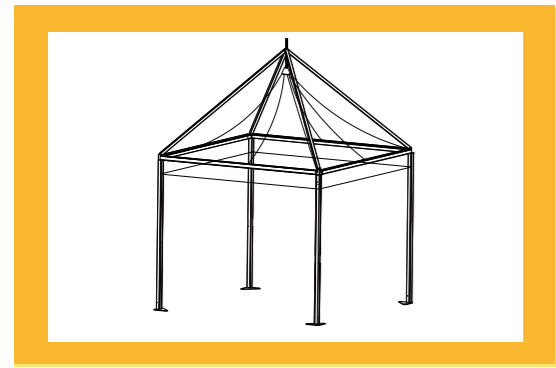

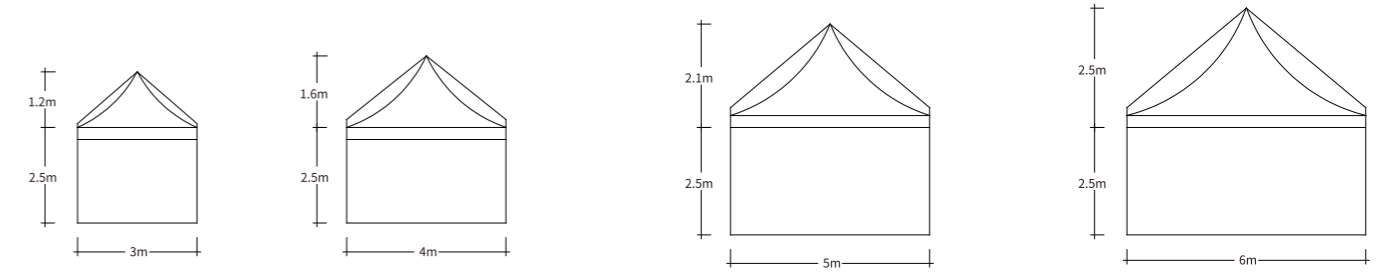

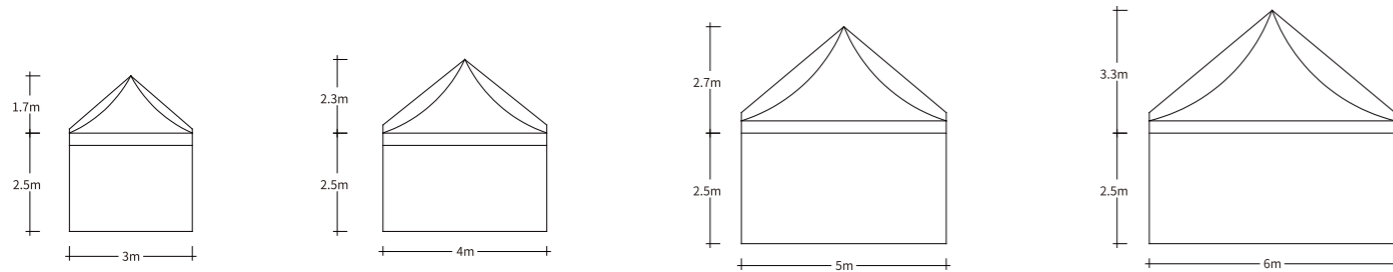

- 用途：活动、婚礼、婚庆、喜宴
- 规格：可定制尺寸、篷布颜色
- 管材：高强度铝合金
- 篷布：可根据客人选择
- 优点：因基新颖独特的造型吸人眼球，相比传统A字顶帐篷，外观更加美观。
- application: For events, weddings, wedding celebrations, and banquet dinners
- Specifications: Customizable sizes and canopy fabric colors
- Frame Material: High-strength aluminum alloy
- Canopy Fabric: Selectable according to customer preference
- Advantages: Its innovative and unique design catches the eye, and its appearance is more aesthetically pleasing compared to traditional A-frame tents.
