## 1967 mercury 110 9.8 hp parts

This 9.8 H.P. Mercury outboard engine was made for the freshwater environment. The piston displacement is 11. The bore and stroke are 2.0 and 1.75 respectively. This outboard has a recoil-type starter and power steering as well. Serial number: 2098352Your engine's RPM range is important when choosing the right propeller for a given application. For example, if you look at your tachometer at top speed and it's not within the engine RPM range then it's generally not good. You want your RPM to be in the right range while wide open throttle (WOT). Be sure to do your testing under your normal boating conditions and with a good propeller (not bent, cracked, or excessively chipped).
