PREMIER HELICOPTER SERVICES

Premier Charters & Helicopter Services

Planet Air Aviation is a Part 135 and Part 133 Operator under the (FAA) code of federal regulations, which means we can offer on-demand pick-up and drop off passengers in different locations around Puerto Rico and surrounding islands and also provide utility work with external cargo load capabilities. If you are looking for a charter, tour, or even flight training in the Caribbean region, we are your answer. Planet Air brings years of experience flying helicopters.

We believe in impeccable and thorough aircraft maintenance with safety being the foundation of our business. The cumulative aviation and helicopter industry experience of our pilots and ground crew assures you the highest level of professionalism for any of our services.

Conveniently Located at Isla Grande Airport in San Juan, Puerto Rico.

SAFETY #1 Priority

Our fleet is the only one maintained by the factory service center in Puerto Rico. We have experienced and trained personnel overseeing the operation of our aircraft.

RELIABILITY 100%

We own and operate a fleet of 4 helicopters; 3 turbines and 1 piston specifically designed to meet all of our client's needs.

Premier Corporate Air Charters

Helicopters are the most useful tool for transportation in aviation. Having the right tool for the job is critical to make sure you achieve your goals on time.

With our charter service, we offer the widest range of air transportation with helicopters in Puerto Rico. The convenience of flying direct to an exact destination is invaluable, with Planet Air Charters you can do so in comfort and style. Whether you are traveling to a meeting, to a sporting event, or evaluating your next investment, a helicopter can get you there quickly and without hassle.

Our flexible departure/arrival times and locations allow you to be in charge of your own schedule. If you're planning a trip to a major event, or you simply want to make an impact at a wedding or another special event, helicopters are a great way to travel.

Meet Our Fleet

ALL of our aircrafts are fully remodeled, air conditioning system, new Avionics ADSB Ready, Bose noise canceling headphones, floating emergency system (for flights over water)
