Top 500 websites for SEO, link building and social media marketing. Share: More about Gravostyle™ Gravostyle™ is a unique "gravotool" designed by Gravotech. Gravostyle™ is a CAD and a software system which allows you to prepare your artwork directly on a 3D model of a gravostyle (The Gravotool). Gravostyle™ is very convenient to use: \* You can very simply scan the original artwork using your laptop or your 3D camera. \* Then, with your authorization, you can open your 3D model of the artwork and design, edit and modify it. \* Finally, you can print the final design onto gravostyle dies with an instant gravostyle printer. Mapping Graphic Canvas When you design on a 3D model of the artwork you can prepare your art just like you would on the original artwork. You can easily export, modify and re-import your models: This is the main advantage of using a CAD software on a 3D model. In addition, you can also easily manage your "Virtual Design School" and your "Virtual Art Museum". The process to print the artwork on a gravostyle with the Gravotool on a gravostyle printer is very simple: 1- Pre-set your options on the virtual model 2- Print it to the virtual printer 3- You can order your paper and supplies on the virtual printer 4- Print the design on a gravostyle die! Gravostyle CAD is a CAD application which allows you to create 3D models from your original artwork. If you have been missing some step, you can find a quick guide on the Gravotool website. If you need some help or if you have any question, just contact me at e-mail: [admin@gravotool.com](mailto:admin@gravotool.com) or via Twitter @GravoTool Gravostyle™ for Gravotech is a free software, but please, feel free to provide feedback (or report a bug) to the team by using the form below.
