From Dr. Joe Vitale, Star of The Secret Author of 30+ Books on Wealth and Abundance My Friend, Have You Ever Asked Yourself, What Would a Millionaire Do, Right Now, In My Shoes? How would a millionaire make my situation a success? When it feels like you're spinning your wheels... When the fight is alive and strong... even when you are quietly convinced you and wealth will never know each other... it's the idea that some millionaire could step in and make some money magic happen that both bother you... and yet pushes you forward. I've been on both sides. Earlier in life I was dead-still and unable to make progress. Now, and for 30 years, I've been a millionaire, a well-researched expert on millionaire minds, with decades of hands-on experience making wealth happen. Today I will give you the mind of that millionaire who already knows the fastest and easiest way to lead you to wealth. The secret is in an unorthodox but scientifically understood mind technology built on very simple truths we would all agree on. You can think of it as reprogramming your mind for wealth, rewiring your brain for wealth-on-demand. Give me 5 minutes of your time, let me prove it to you and I think you'll easily get it, just like those that have already begun. Why a Millionaire's Mind could transform your situation into wealth when you couldn't break it down: The millionaire's mind is much more than a head full of practical wealth drawings, tricks, tactics and strategies. The source of a millionaire's mind power to create wealth comes from a fusion of 4 powers: Mental power, intuitive power, emotional power, and soulful power With mental power a millionaire finds the best practical path to create wealth in any situation With intuitive power, a millionaire knows how to go that way in a straight, unwavering line With emotional power , a millionaire can block their subconscious destructive habits, such as fear, doubt, indecision, self-sabotage, and stress. With soulful power, a millionaire creates speed, momentum and distance by fueling the whole process of meaning, passion and vision. The kind of millionaire you want to be, these 4 powers have deeply put in their millionaire mind. It's the kind of millionaire who can jump into your shoes and make your path to wealth a reality in your life. And if you want it for yourself, the millionaire mind hack I'm giving you today can hand you this millionaire mind. WANT MORE MILLIONAIRE MIND SECRETS FROM JOE VITAL? Let me just say it: I know the ins and outs of the millionaire mind as very few do. I made it my mission in life to share the wealth. From my own my 30 years of research, surrounded by an inner circle of amazing millionaire minds, I can put it all out for you, piece by piece. But I can't reach into your mind and replace it with a millionaire's mind. So I've partnered with a man who has devoted his life to doing just that. I'm happy to call him a friend and colleague. Dr. Steve G. Jones has made a name for himself as a wizard of mental transformations He has a master's degree in cognitive psychology and a PhD. in education. He is considered the world's leading expert in hypnotherapy with 25 years of hands-on experience, a master of Neurolinguistic Programming (NLP), a best-selling author, and a man with lots of success stories. But he is not your regular hypnotherapist, or NLP expert, or cognitive psychologist. He is a man devoted to the groundbreaking protocols that help individuals like you transform their minds into the mind they want, in the easiest and most effective way possible. We came together to create something I'm very proud of. I put the tried-and-true blueprint of millionaire's mind, and Dr. Steve Downloads It Directly Into Your Mind. Here's how: Dr. Steve's secret formula draws its power from a simple, and proven, method of mental recalibration: FULL immersion If you want to quickly reprogram your mind in the millionaire mind, you must put your conscious and subconscious mind to a place where it has no choice but to change. You must fully immerse yourself in the millionaire's mind. And the science behind the brain shows us that a full immersion experience is, hands down, the fastest way to undertake a significant transformation. Here's an example: A woman decides she wants to stay in Japan for a year. She doesn't speak Japanese. She was probably very intimidated by the task of learning the language. She could have felt she wasn't up to the task. Not a natural language student. And yet, at the end of this year, she speaks almost fluent Japanese. How? It's a basic survival instinct. It's washing or swimming. And in these moments, our minds can accomplish incredible feats. You can also see it in military bootcamps, language immersion elementary schools, even the prestigious Cornell University has a mandated full immersion business education. The research is extensive: Over 40 research articles have been published supporting the power of full immersion techniques. Universities such as Harvard, Cambridge, George Washington University and MIT have devoted resources to studying, exploring and evaluating full immersion training. Guess what? It works. And using this core science, merged with Dr. Steve's 7 reprogramming protocols and my millionaire mind blueprint, I'm so proud to give you Wealth Trigger 360. Welcome to Wealth Trigger 360 First, like all examples of full immersion, you will be immersed in millionaire morning, noon and night ... exposure throughout the day. Yet hardly notice it happens Wealth Trigger 360 is a breakthrough system that you can use even when you live your everyday life. To do this, Dr. Steve's using 7 core protocols embedded in the 36 millionaire-mind audio reprogramming sessions. One session in the morning, a daytime session and a session before going to bed. All you have to do is put on headphones and press play. Technology does the rest. Now let's look at how: As I laid out before, giving you the fusion of the mental, intuitive, emotional and soulful powers found inside the millionaire's mind is what will give you the results I promise. This is how you will be able to look at your life with new eyes, with millionaire eyes, to find the right path to wealth, stay on course, move without much thought or effort, driven by passion and meaning. This is what I bring to the table. This is what I brought to Dr. Steve and what he used to develop the whole full immersion mind reprogramming protocol. Let me explain what you'll look like with these four powers inside the millionaire's mind: As a mental millionaire, you can: Take any business or blueprint and actually turn it into money in the bank Knowing how to choose the right business option or turn any idea into a money-maker See any threats to your wealth-building a mile away, and adjust the course to avoid collisions Turning obstacles into opportunities for profit Making the right decisions Make the right decisions when the moment demands it See money where others would miss it Develop strategic relationships where everyone goes away richer Know when to say yes ... and must say no Take advantage of your wealth powers within you... strategic opportunities outside of you... to double or even triple your profits As intuitive millionaire, you can: Know the right decision without a conscious thought Master any threat that suddenly appears in front of you Channel the unconscious decision machine that often knows the right path to wealth when the conscious mind is overwhelmed by the possibilities build lucrative relationships by knowing what to say and when to say it Move quickly and decisively When you don't have the luxury of time Sense a dangerous wealth-threatening situation before it arrives as soulful millionaire: You are driven by a purpose that can keep guiding you to wealth... even when the other parts of you are struggling You know how to use manifestation as a practical component to financial success You know how to utilize the Law of Attraction to deliver new levels of wealth in ways most can't understand You are guided by passion that magnifies your profit You are unwavering in your internal drive for meaningful success You are immune to any of the ways , money can turn against you You are full of compassion and empathy for everyone you deal with (a unstoppable relationships) You amplify the power of your the strength of your emotions, and perhaps in your mind to push faster towards economic freedom You find fulfillment in wealth that can last a lifetime As the emotional millionaire, you can: Channel strength and conviction to propel you to your dreams Deflect the common emotional pitfalls, trap most entrepreneurs Banish fear and doubt before they get their hooks in you Feel the sweet freedom of your depraved passion to achieve Liberating your unconscious mind of the old luggage and blocks that hold your success hostage Focus your desire to create consistent action and unending motivation Respond to challenges without losing your clarity and drive Auto-correcting your course when you are knocked out of balance Embrace wealth, when you may have feared it now, let's look at the protocols Dr. Steve uses to make it happen : NLP is a powerhouse, and Dr. Steve is not only a champion, but he teaches other masters how to get the full effect out of it. NLP is a remarkable discovery used by governments, law enforcement, therapists and speakers to access the deepest parts of a person's subconscious. Through extensive research, the researchers identified specific, targeted language patterns that can be used to circumvent the barriers of the conscious mind. These are the barriers that can block the conscious and unconscious parts of your brain from developing and changing in a positive way. Dr. Steve took the four powers of the millionaire I laid out for him, and weave each element of NLP commands that bypass your conscious and subconscious blocks. It's like telling your mind what to do... and your mind actually does it. While relaxing meditations provide surprising benefits by themselves, the type of guided meditation used in Wealth Trigger 360 has two goals: First, the focal point meditations gently bring your mind the primary mental space needed for optimal full immersion. Second, because meditations induce a relaxed state, the blueprint of the millionaire mind has an easier time embedding directly into your mind. Once fused with the other protocols, this focal meditation process works its magic, even when traditional guided meditations might have let you down in the past. Result? A relaxed body and mind optimally susceptible to the full immersion reprogramming process. Persistent exposure to the same words, the same phrases, and the same ideas automatically rewires your brain and implants a new language into your mind without you trying. It's like getting a song stuck in your head, except it doesn't fade. The formula is simple: the more repetition, the deeper the reprogramming. Affirmative Repetition is a critical tool that your wealth reprogramming stick in your mind... and stay. Like the catchy song you can't get out of your head. As you move about your day, you hear the same wealth principles of repetition, over and over again... And your mind, especially your your obstacles will not be able to stop them. The drivers of hypnotherapy, NLP, and cognitive psychology have discovered a simple truth: No matter how different we are all individually, the path in and out of the adetic subconscious is the same in all of us. The breakthrough happened when these masters found the way in and out of the subconscious mind. When you integrate the millionaire-mind blueprint into hypnotic reprogramming, it gently forces your mind to comply. There are five steps to the hypnotic reprogramming process: 1. Induction: This is the beginning of the audio reprogramming sequence that uses simple subconscious instructions to prepare your mind for reprogramming process 2. Deepening: This section uses advanced hypnotic and NLP suggestions to bring your conscious mind to a standstill and opens access to your subconscious 3. Reprogramming: This is the meat of the transformation process. This is where specific ideas, habits, techniques, knowledge and perspectives you want to program into your mind are implanted directly into your receptive subconscious (your conscious mind cannot interfere) 4. Amnesia: This uses simple hypnotic language to erase any chance your mind is trying to remember what it has received. Our minds are powerful beasts... and they try hard to break into our experience and euthanize it all. Through the Amnesia process, your conscious mind will never have access to 5. Trance Termination: To the end, you're probably guided out of the reprogramming trance and reintegrated with your conscious mind. With the hypnotic reprogramming, you can access parts of your mind no other technique can achieve. When modern scientists began researching the brain, they discovered something spectacular... Our brains run with different electromagnetic frequencies. These frequencies, measured in hertz (Hz), correspond to each state your brain functions in. So, for example, when we are in a deep sleep, our brains are vibrating at very low Hz (Delta frequency range). When our brains are in an expansive creative state, they are vibrating in the Alpha frequency range. When our brains are hyperactive, focused and at point, they vibrate in the Beta Frequency Range. Brain Entrainment forces your brain into one of the optimal states found in these different brainwave frequencies. The scientific principle simply says that a greater force has a major influence on the lesser force. An example in nature is when larger cloud formations force smaller systems to rotate at the same speed and direction. We achieve this in your brain using specially formulated sound frequencies (binaural beats, isotronic tones, etc.). When you listen to these frequencies, your brain entrains itself to this frequency. ... and voila! You are now in the sharp, focused and active state of mind you were looking for. Inside reprogramming audiotapes Dr. Steve created, he uses different types of brain tearing frequencies to literally force your brain to enter the optimal state for unconscious reprogramming. Brain Entrainment helps guide your mind into the optimal state of reprogramming, even if your mind struggles to hold you back. Recent discoveries in brain collection research have revealed a series of six very low brainwave frequencies that are simply more potent than others. The Solfeggio frequencies have their roots in the study of medieval monks. However, modern research has found out exactly how they are so effective. Take a look at the picture below: This is what happens to water molecules when exposed to Solfeggio frequencies. Complex symmetry... an association of all molecules to form a harmonious whole. Imagine what

would happen in your brain... Research has shown that these six ancient frequencies have six unique effects across the board. Specifically: 396 Hz - aids in the process of freeing you from the immense burden of guilt and fear 417 Hz - allows you to increase your mind's ability to undo harmful situations and facilitate conscious and unconscious change 528 Hz - is admittedly mysterious, but has been shown to facilitate the process of whole transformation and even stimulate DNA repair 639 Hz - increases your ability to build deeply , meaningful and beneficial relationships with others. It's the social frequency 741 Hz - can open up emotionally closed or blocked individuals, freeing their vital ability to express themselves at 852 Hz - has shown results in giving you greater access to spiritual experience and transformation Solfeggio Entrainment not only brings your mind into the optimal reprogramming mode, but it also works its own powers to transform your mind. Using wealth scripts enhanced with Neurolinguistic Programming and Brain Entrainment with Solfeggio Frequencies, the start of your day's full immersion involves a specially designed script that begins to bring your mind deep into the immersion experience. Using simple soothing techniques along with specially designed brain parting, this morning audio session will calm your mind, relax your body, and begin the process of wealth recalibration. Fuse meditation element with Dr. Steve's scripts containing millionaire mind wealth blueprint, and you have and while this on your own may have positive results, the primary goal is to set the tone for your body and mind throughout the rest of today's Full Immersion Wealth Reprogramming. PROTOCOLS USED: 4 pillars of Millionaire Mind Focal Meditation Neurolinguistic Programming Brain Entrainment Solfeggio Tuning Every moment you can, you should have these plays in headphones or on speakers. You don't have to pay attention to it to work. It does its job whether you think about it Not. Instead of just simple doing this, do it... believe this, believe that training, this script is merged with elements like Neurolinguistic Programming to access and rewire both your subconscious and conscious mind. PROTOCOLS USED: 4 Pillars of Millionaire Mind Affirmative Repetition Neurolinguistic Programming During the morning and day sessions of Full Immersion Wealth Reprogramming, both your conscious and unconscious mind is soaking in these money-making techniques and principles at every moment. But it's the setting process that solidifies and makes the bond rock solid. This hypnotic reprogramming does the same. And research from universities like Stanford... plus thousands of success stories ... prove it works. You will put on these uniquely formulated self hypnosis sessions just as you need to go to bed. You will be taken into a trance where the same principles you were digesting during the morning and daytime are implanted deep inside your subconscious so they do not escape. I've been doing interviews for years now, but sometimes I get to interview someone who blows my mind - that inspires me beyond everyone else. That's what happened to Bill Bartmann. You're going to listen while I'm interviewing Bill Bartmann, a self-enlightened billionaire. How do you go from being a 14-year-old boy on the street to a billionaire? That's one of the questions I asked Bill. And his response inspires and informs in a new way that will touch your heart and awaken your spirit. I've really been dealing with Bill. Partly because I was homeless decades ago and could relate to his struggles. But I also related to Bill because he achieved the status of being a handful of the world's billionaires - something I'm ready to achieve next. In this amazing interview Bill and I discuss: How to go from poverty to success The three steps to change any person – no matter what exercise to turn failure into success How facts are not as important as the perception How to see opportunity amid the chaos Why Bill hired jets to take his employees on vacation The three essentials for success in business There are more of course. Bill talks about his mission to help teens, to help businesses succeed, and more. Bill is sincere. He's been around the block, chased up trees, and struggled to do so. But he did it. His insights, life lessons, and secrets will help you, too. This interview is gold. And you get free instant access as soon as you say yes to Wealth Trigger 360. When I struggled in the late 70s and early 80s, one of the things that pulled me up and gave me hope and direction was Arnold Patent's best-selling book, you can have it all. Oprah did a great deal of the book. So did the national journals. So did book buyers, who made it a bestseller. While the book inspired me, it confused me too. I wasn't ready for it at the time. That's why it's an honor and a treat, a special moment for me to be able to publicly thank him for his book and his mentorship. Arnold Patent was a lawyer and businessman for 25 years. His basic beliefs never meshed well with the assertion inherent in practicing law, and this interruption helped launch him on a spiritual and personal development journey that has changed many lives. Arnold is in in the eighties, but still write and teach. I was lucky to find him and even luckier to get this interview with him You will discover: What can be the natural state of the universe does for you? How do your thoughts and feelings combine to become remarkably powerful? What principles are driving the universe? Why do you have to be honest about your reality right now? What is the true, only purpose of money? Who is the perfect trainer for you and how will you recognize this person? What can you do to completely transform your experience of paying monthly bills? How can you use the Mirror Principle to change your life? What is the one thing you need to do to end the cycle to create what you don't want in your life? You'll love this interview with Arnold. He said some clever and profound things about life and business. His thoughts on the sole purpose of money will make you stop and think. With you when you sign up today. We've eliminated all risk: Our 60-day, Triple-Matched, No-Questions-Asked Money-Back Guarantee means you don't have to take my word for it. Try it for yourself. And I sincerely hope to see you inside. Loving, Dr. Joe Vitale P.S. How far will you get if you don't have millionaire minds? How far do you think you can go? I would never have reached the wealth, abundance and joy I have today if I didn't make that critical decision to jump in, fully immerse myself in the millionaire secrets and success principles that made me who I am today. Who knows, maybe I'd still be sleeping on the stairs to that post office in Texas. Without this, it will be a long road, my friend. It's going to be hard. Yes, you can. I did it. But why put in the years of time, effort and struggle that I did when all you have to do is say yes today ... without any risk? Get started here: P.P.S. I can imagine that it might be too good to be true. Can you really get the millionaire's mind blueprint implanted in your head? The science is there, the proof is there, but it it seems too good to be true. That's why I'm letting you have full access completely risk-free. You have a full 60 days to test drive and see if I live up to my promises. If not, just let me know and you keep the whole program, the two wild bonus interviews... and get a full refund. No questions asked. How could you refuse? I would like to make it clear: you will see results as soon as you begin the protocols, but this is not a transitional outcome. Yes, it's almost effortless for you (you literally just press a button and jump in). Yes, it has been shown to produce results faster than any other method. And yes, it's quite as close as you can get to a magic pill. But, as you can imagine, millionaire minds are not about a short list of improvements. The development of this merger of the four key powers of wealth creation has many parts. But we've crafted a way where you can see results as soon as tomorrow. Results you can use immediately. Results that can offer you tangible changes in your life... that can push you in the right direction towards the wealth you want. Would.
