

VETERANS WELFARE

•Welfare•Advocacy

These quality hand-made boards are made for Veterans Welfare by Veterans & Volunteers to raise funds for support of those who have served their country. Sadly, statistics show that one third of our Veterans have faced forms of trauma in transferring from the ADF to civilian life. They need our support to guide them through the many pathways that seem too big to handle on their own thus they need a helper in the form of a VW Advocate. The VW Advocates role can assist the Veteran to obtain the best possible medical assistance where needed with DVA Liaison, Counseling, Doctors, Rehab and Mental Health professionals.

DISCLAIMER: Please note that we aim to produce and maintain an excellence of high-quality Cutting Boards with timbers that may have slight imperfections that we cannot control. These unique timber grains pictured in our brochures will not always be the same. They are all unique because of the timbers we use.

The supply of timber can also affect the overall dimensions from what is advertised. All our boards are made with native timber that shows a unique and attractive grain that is rich in colour and a food safe. Our boards are round cornered with a bevel edge and sanded smooth.

The boards are then treated with Food Safe Vegetable Oils to ensure the quality and maintenance of appearance. To maintain the quality of your board wash only in warm soapy water then when dry, rub into the board with a vegetable oil to maintain the richness of the timber.
