## Immune response worksheet answers

In order to continue to use our website, we ask you to confirm your identity as a person. Thank you so much for your cooperation. In order to continue to use our website, we ask you to confirm your identity as a person. Thank you so much for your cooperation. If you see this message, it means that we are having trouble downloading external resources on our site. If you're behind a web filter, please make sure the domains no.kastatic.org and no.kasandbox.org are unlocked. Name (s): Today you will explore a wonderful place to learn Dr. Lingo. Not only do you pick up some impressive ER vocabulary, but you actually learn what the words mean. Your parents will be so proud. Using Dr. Abraham Kadar's Immunology Home website, you will learn how your body reacts to foreign particles such as viruses and diseases. The next steps will lead you through today's activities. Use your web browser to access the homepage at URL below: [www.cloud9net/](http://www.cloud9net/) Read the information provided on this site to answer the following questions. How many answers to protection does your body have? Name the types and give examples of each. Which part of the immune system is the key fighter against foreign particles? What is white blood cell? Why are white blood cells important? Click on one type of white blood cell, click on the link and write a paragraph on the back of this sheet describing how this particular cell works. You may have to follow several links to get all the information you need to write this paragraph. Now that you've learned more than you thought you could about some complex immune responses, think about related issues to talk about.
