They are portrayed as the main interceptor and dog fighter of the Rebel Alliance and the New Republic. Craft was a commodity like various toys, models licensed for use in games, novels and comics. - The Scherzo Wikipedia Note program for X-Wings (2015) is part of the latest installment of Star Wars: The Force Awakens, which was released in December 2015. The action takes place about thirty years after the completion of Return of the Jedi. As old and new characters come together in the film, Williams's score artfully weaves together familiar music from original films with brand new themes and brilliantly highlights key actions and relationships. Scherzo for X-Wings accompanies a furious battle scene involving iconic air fighters of both the Resistance and the First Order. This arrangement from the score for Star Wars: The Force Awakens was prepared specifically for the marine group Own President. - Note Program from the University of North Texas Wind Ensemble Concert Program, 1 December 2016 Commercial discography No one has discovered so far.
