base leg

Flexible seat depth

On some units, the backs can be moved back a few cm to increase the seat depth. The total depth changes.

Flexible armparts

The armparts are foldable and fitted with notch function as standard.

Flexible plug-in headrests

The headrests with joint can be inserted into the opening between the back body and the back cushions individually.

Elegant metal runner

This model is equipped with an elegant metal runner in black powder-coated.

Lumbar pillow

The lumbar pillow can be placed in the back for an even more comfortable fit.

ORDER INFORMATION

Flexible armparts:

Maximum load capacity up to 25 kg, they are not seats.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the different variations available. The connecting sides got marked in red for some elements in the type guide.

Base leg Z:

If elements and sofas without or with 1 armpart are to be placed directly against elements or sofas without or with 1 armpart, a base leg Z is required and must be ordered separately.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch

www.schillig.com

fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All dimensions given are approximate measurements in inches. We reserve the right to make changes. The dimensions are given in width/depth/height/seat height.

Measurements of the corner combinations:

With this model the seat of the one arm chaises the seat rises approx. 2 to 3 cm into the connecting side. Therefore other total measurements occur than by pure addition of the article measurements. Please note.

Seat depth: approx. **21 in**

Seat depth with function seat depth adjust-

ment:

Back at the front: approx. **21 in**

Back at the back: approx. **31 in**

Seat depth one arm chaise: approx. **48 in**

Seat depth one arm chaise incl. seat depth

adjustment: approx. **58 in**

Armpart width: approx. **16 in**

Armpart depth: approx. **35 in**

Armpart height: approx. **19 in**

Armpart height with function full up: approx.

25 in

Overall depth sofas, with rear back: approx.

45 in

Total depth of one arm chaise when back is at

the back: approx. **71 in**

Recommended wall distance: approx. **12 in**

Recommended wall-distance incl. headrest:

approx. **14 in**

Note on seat height:

The final seat height on this model is only reached over time by sitting in, due to the upholstery construction.

Particularly casual upholstery:

The upholstery of the model is particularly casually processed to create a certain visual appearance, which is characterised by a super soft surface. Covers may already show a pronounced wave pattern on delivery, which is intentional in terms of design and construction and can become even more pronounced during use. This is not a quality defect, but a model-related characteristic.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

W.SCHILLIG

LEGS

metal runner black

F T9

Powder-coated:

The colour M99 black is powder-coated.

Leg and floor protection:

Slim furniture legs with a small gliding surface exert increased pressure on the floor. For sensitive floors, we recommend fitting glides/ an underlay to protect against scratches and pressure marks.
