Descriptions :D Opening one of the most interesting and fun ways to express yourself through art. The complex process of producing cartoons has become an easy task. The app deals with all aspects of cartoon creation, from drawing characters to publishing them. Enjoy the new builder character and new designFeatures: - Building smooth animation by keyframes - Integrated library of characters and elements. - Character builder (you can create items from scratch or with the help of - The Voice of the Voice Cartoons or Add Music - Export and video files (mp4 format) and share them Draw Cartoons 2 PRO is a cartoon creating an app on your mobile phone. He was let out by the Fill. The app allows users to create short animated videos and export them to GIF animations or video files. With a huge list of items, simple editing tools, and an easy-to-use interface, Draw Cartoons 2 PRO deserves one of the best mobile cartoon-making apps today. Create cartoons on your Android SmartphoneHave have you ever wondered how an animated movie is created? It's not hard to see an animated movie on TV or online. It attracts not only children, but also adults. Making a full animated film is not as easy as many people think. It requires a massive team of writers, voiceovers, graphic designers. They have to work hard to make the perfect product. In addition, Draw Cartoons 2 PRO allows users to create short animated films directly on their smartphones and tablets. Although it doesn't have powerful features such as professional graphics software, Draw Cartoons 2 PRO is enough for you to create an impressive video and experience the work of an animator. Although the app is a simple animation, it still applies the popular animation principle today. It combines multiple stop images in a single motion video. Users can draw items or select existing items, switch to another picture by clicking on the blue arrow button below and moving the object. In addition, you can do the same with the next photo. One of the reasons why users appreciate Draw Cartoons 2 PRO is that it has a lot of tools. They help you quickly and accurately complete the animation editing and design processes. Users won't need to spend time learning how to use them. All the tools are simple and familiar to the user. Use is very easy, even for children. By creating unique items, Drawing Cartoons 2 PRO unlocked all items. Users will have a large inventory of items with regular updates to reveal the design of animated and unique animated videos. In addition, users can also develop their cartoon items. Each element or symbol will be made of parts called elements. Users can create everything from scratch or use existing templates and edit them again. Each item will have a main point - this is a special point, can not be moved. All elements must be linked to this point. In addition, users can click the green plus icon in the top right corner to create a new item. At the end Click Made to complete the process. In addition, there are many tools that will help you create objects accurately and quickly. For example, an eraser has a red garbage icon that helps you easily remove objects. Don't worry if you delete it by mistake because you can use the undoing tool to come back. Find out about Pointin Draw Cartoons 2 PRO properties, you'll probably notice that some items may attached to other items. For example, wheels attached to the body of a car, or a gun attached to a soldier's hand. You absolutely can do this after a few simple steps. First, you need to select a point, such as a hand, and click on the green gear icon to open the Point attribute section. There are two options for you, including a slave and a master. If you mark a slave, it means that the item can be attached to another (Master Dot). Conversely, if this point is marked as The Master, you can attach other things to that point. Graphic editing toolsIn the process of editing animated images can use the following tools to help the design process be faster and more accurate. Simple Fever: This tool will help you adjust the distance between your finger and the actual drawing point while drawing objects. Users can use a long click on the Simple Rush icon to open the conversation, drag the slider to adjust the distance. The Paint Bucket tool allows users to draw filled areas. If you want to color another item, double click on it. The palette is in the left corner of the screen where you can change colors. Eraser: The eraser icon is a familiar tool that any graphic design application has. This will help you remove the false strokes. There is also a tool to erase everything, which has a garbage icon that allows users to remove all objects on the screen. Geometric Symbols: Draw Cartoons 2 PRO provides users with variants of circles, squares and lines for a quick and accurate draw of geometric objects. Insert wallpaper and audio To make the animation brighter and more appealing, users can add background and audio. The app provides a large list of wallpapers and audio for users to choose from. You can also download background image or audio from removable memory or even record your voice directly. Regularly updated With more than 5 million downloads on Google Play, it has proven the appeal of Draw Cartoons 2 PRO. The developer didn't disappoint users when they regularly update new features and items. The interface is intuitive, suitable for editing operations on a mobile phone. Unlike professional graphics software, Draw Cartoons 2 PRO is lightweight, compatible with most smartphones and tablets today, including low-profile devices. The app runs smoothly, exporting files quickly to bring a better experience to users. In addition, new items are regularly updated to help users have more choices. SummaryIf you want to try to make an animation yourself, Draw Cartoons 2 PRO is the perfect choice. The app has a huge library of items. In addition, he regularly with a menu that appears context-based, such as copying, joining and deleting, which help the design process faster. While Draw Cartoons 2 PRO can't help you create a long animated movie with beautiful graphics, the experience that this app gives users is great. The app doesn't consume much much On the device. It also has a small capacity, minimalist interface to help users easily perform all the transactions on the phone screen. You will be given tools to edit, draw and paint objects. You can also add wallpaper and background music if you like. Finally, you can export your work to videos, upload directly to YouTube or save as GIF animations. Especially for the GIF format, the app allows users to export only with a maximum duration of 5 seconds. You guys can download the app here below.
