Barron s sat vocabulary list pdf

Barron's SAT Vocabulary Flash Cards is a brand new test preparatory tool that presents 500 SAT high-frequency words selected because they appeared as keywords in recent SAT reading excerpts and critical reading and sentence-completing questions. The cards are alphabetically placed in a box, with an additional place marker card that students can use to measure their progress in word learning. This set of flash card building dictionary allows SAT test takers to review words they may already know, as well as master unfamiliar words that they are likely to encounter both on the SAT and in their college courses. In front of each card the target word is listed along with a guide to its pronunciation and its part of the speech. The flip side of the map represents the definition of the word, uses it in the sentence and lists the synonyms. Students who master all 500 words will find the accompanying instructions on how to create their own flash cards and continue to expand their dictionaries. The flash cards in this set each have a small hole kick in one corner. It holds a closed metal ring that students can use to arrange card selection for on-the-go learning.
