

THE FIRST INTELLIGENT SIMPLE AND SAFE HOOKING SYSTEM

SWISS MADE 

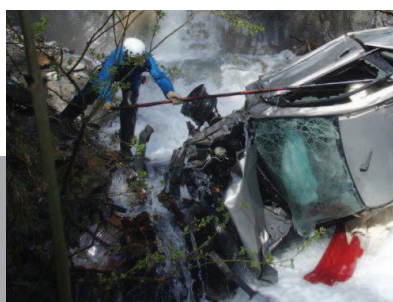

MaxiCroc

**Maxicroc
is the first
intelligent patented
hooking system that offers
an easy quick and safe way to pass
a rope around a distant object in order
to reach it or secure oneself to it.**

MULTIPLE APPLICATIONS FOR A VARIETY OF PROFESSIONS...

Maxicroc is essential for professionals and amateurs who wish to increase their daily performance and improve their skills. Maxicroc is already widely used by professionals and has shown efficacy in numerous situations and applications.

SOME EXAMPLES

Firemen

to climb securely towards a target

Rescue teams

to reach a person or an object

High voltage electricians

*to climb securely up a pylon and reach a post
on a roof*

Police

*to secure an anchor point, to climb up a building
or onto a balcony*

Forestry experts

*to climb a tree, to reach the top of a tree
that needs pruning and then control its fall*

Chimney sweeps

to climb onto a roof securely

Navigators

to tie a boat to a mooring buoy or bollard

Mountaineers

to reach a piton or a carabiner

MAXICROC WAS DEVELOPED FOR MULTIPLE USES

A complete kit

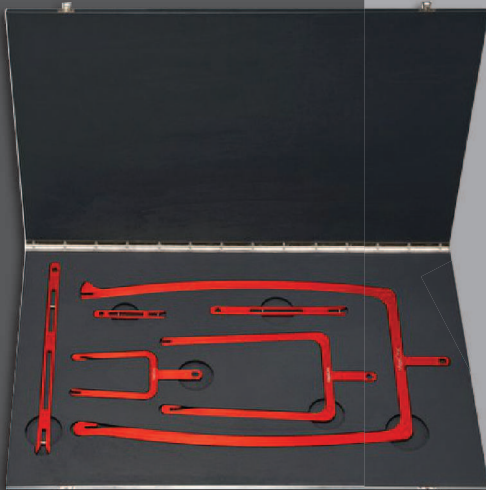

- 3 different croc widths to adapt to most configurations
- Lightweight yet robust materials to guarantee a strong and manageable device
- Storage box for easy transport

The Maxicroc kit comes with

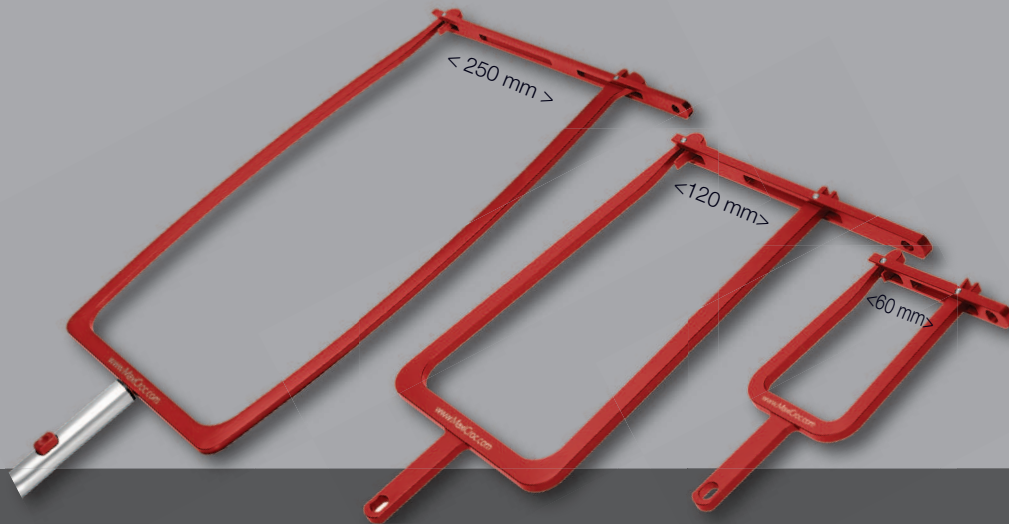

- 1 storage box for transport
- 3 antistatic securing crocs made of ultra light aluminium

Optional :

- 1 telescopic pole of 2200 to 4000 mm
- 1 adjustable rod of 2200 to 4000 mm

 swiss quality

EXPERTISE AND INNOVATION TO SATISFY THE PROS!

The result of 30 years of expertise

"I have been working as a high voltage electrician for 30 years and I encounter security problems daily when I have to climb up a pylon or reach a post on a roof. I wasn't happy with existing tools so I developed a simple system to improve security and precision whilst guaranteeing total security."

Jean-Marc Massy power system electrician, Inventor of the Maxicroc

In the specialised press

"During an exercise we had to free a paraglider from the top of a tree and Maxicroc was just brilliant."

"It's amazing how Maxicroc is not only easy to use, but it keeps the rescuer safe which is the basic rule during any operation."
