To change the position of the marquee, click and drag on the marquee symbol. This is perfect for printing on fabric. Use the fill pattern tool to fill the area with a specific color. To create a pattern, draw a shape, and then click on the pattern box on the home tab. The Photoshop pattern tool lets you manipulate those patterns as well. To create a text layer, use the marquee and move around the text to place it where you want it. Before clicking OK, it is important that the text area on the home tab is selected.

Type a new message. Click OK to insert the text layer, and it will appear at the top of the layers panel. Open a text layer by clicking on it on the Layers panel. Use the Type tool to edit the text. Then click OK on the text layer to close it. Double-click on the text layer and change the font, colors, or any other style of the text. Change the text on the bottom layer to blue and merge them. To delete a layer, hold down the Ctrl (Control) key and click on the layer you want to remove. Click the Delete key.
