Based on the Pokemon fan video series on YouTube, Pokemon Rusty seems to have a strange Pokemon hack. This is an adventure of a young and inexperienced Pokemon trainer named Rusty, who is always not in what he does. Its feature is white glasses on his face. He's too naive and stupid to be a real coach. His intelligence is very, very low, almost he knows nothing about Pokemon. Moreover, he often kills his Pokemon by accident. Wherever he comes, there are disasters. Always inspired by his hero Red, he called his Kakun Pikachu and always respected her in his own way. Rusty lives with his parents. One day he goes to Professor Three's house and gets a kakun there. From here, this Kakuna is constantly beaten in many unsuccessful battles with him. At first he was beaten by a random Bug Catcher. After that, Rusty was hit constantly by Pikachu as he tried to save him from a member of the Rocket team. And during a trip to the shopping center Celadon Rusty accidentally filled the bike of Professor Three drugs. Much later, he ran into Team Rocket again in pursuit of Sinnabar Island, where he also met and stupidly challenged Blaine (of course he didn't again). Seeing him in this situation, Blaine gave him a shell and said to him: This is proof of your courage: badge! You're standing behind it. This lifts Rusty's spirits once more. Features Enjoy a new storyline about one of the most unfortunate - stupid Pokemon trainers in this world. New graphics.
