

Family Protection Plans

What We Do: Protect families from the financial stress caused by sickness, accident and death.

Why is it important: Families without a Protection Plan are 52x more likely to lose their home from sickness or injury than due to a house fire.

How we do it: Put in place a comprehensive Wealth Protection Plan that provides the following security and peace of mind:

a) Provide regular income so you can concentrate on getting better without stress or injury.

b) Provide a lump sum in the event of heart attack, cancer, stroke or heart disease which provides enough money to pay for cost of best medical treatment plus two years income.

c) Provide a lump sum if you are permanently disabled. Provide enough money to pay off your mortgage and provides ongoing income to put food on the table and pay all the household bills and keep your children in the same schools.

d) Provide a lumpsum if you are permanently disabled. Clear the debt from all investment properties so you and your family has a substantial income stream to retain the same lifestyle.
