Papa Bear is stereotypical, but then learns a lesson himself, I love how the Berenstains show that not only kids but sometimes moms and dads have the wrong ideas about new people and things. And I am all about diversity. I would love a little more in my area. I know Note 3. Note I did learn that Giant Panda's are bears. Red Panda's are more like Raccoons. True Bears are part of the Ursus Genus! Apr 08, Kristine Hansen rated it it was amazing Shelves: kids-picture-bookracism.

Another book that annoys me in it's preachy message. Panda Bears move in next door and Papa proves that he doesn't like change - or bears of a different color. The kids of course wind up doing the ice breaking. The Berenstain Bears New Neighbors the story unravels about how you'd expect. What annoys me is that again, we have a big change to the dynamic like Mama's job that is never mentioned again. There's never another Panda or any other bear of color in the books after this one, which only The Berenstain Bears New Neighbors to show that diversity isn't Another book that annoys me in it's preachy message.

There's never another Panda or any other bear of color in the books after this one, which only goes to show that diversity isn't important in Bear Hollow as they like to pretend it is. Honestly, I'd give this one a miss, just for the freaky way the eyes look on the Pandas. Feb 09, Cera Foote rated it it was amazing Shelves: picture-children-s-books. Papa Bear doesn't like the new Panda Bear neighbors that have moved in across the street, because they're "different. This book is a great example for younger kids of how judging someone based on appearances, culture, language, etc. It also teaches them how they should act towards new people in the neighborhood and classroom.

It discusses how children should be open and willing to accept someone and not judge them before they get to know them. A house was for sale in a community where nothing but bears lived. The bears was assuming that other bears would move into the home.

The Berenstain Bears New Neighbors children cubs were excited to have other children live across the street from them but the father bear wasn't happy when he saw who was actually moving into the house. It was a pan New Neighbors is a wonderful children's book about acceptance. It
was a panda family. They were nothing like the bear family. They didn't eat the same foods, or prepare their lawns the same way but papa bear
judged them and wouldn't give them a fair chance.

When the mother bear went next door to greet the family and welcome them into the neighborhood, papa bear had no choice but to come over
and feel them out. He is actually relieved when he figures out that their families are still one family, they just do things differently. The illustrations
corresponds with the story. Mar 16, Melody rated it really liked it Shelves: multicultural-text-set. All the while, mother Berenstain encourages and
informs her family that sometimes different is good and you should never judge a person by how they look.

At the end of the story, they learn to accept and embrace the different cultures and become friends at the end. I like the The Berenstain Bears New
Neighbors - The Berenstain Bears New Neighbors story is about a new family moving in the house across the street from the Berenstains.

I like the illustrations as I think that they always did a great job with the story line and illustrations. I also like the fact that it teaches children to try
new things and not judge one from their outer appearance. What I did not like about the book is that they made all of the pandas look alike.

They all wore the same clothes and had the same facial expressions unlike the Berenstain family where you can tell that they have their own
distinctive look. What they did to the panda's remind me of the stereotyping where people say that all Asians look alike. Jul 17, Rosa Cline rated it
really liked it Shelves: kids, I really enjoyed reading this book to my children; as in most of the Berenstain Bears' books it helps teach a 'moral' and
in this one it 'boards' on teaching about Racism.

The house across the street from the Family is put up for sale. And the lady that sold it won't tell the family who it is that bought it. But when they
move in, they are a family of Panda Bears! But Momma is reminding the family that different is good and they could be your best friends if given the

But Momma is reminding the family that different is good and they could be your best friends if given the chance. And sure enough they are
welcomed and each family teaches the other about their differences. GREAT way to help explain skin or culture differences to a child! Sep 01,
Connie rated it liked it. Berenstain Bear books are cheap, and cover nearly every issue, but they sometimes have problems with them.

Take this one. Papa Bear is often the foil to Mama's wisdom. Unfortunately, that means in this book he's stuck being the bigot, disliking their
neighbors for being different
