Copyright 2020 Service Manual Safe. All rights reserved. Type: Loader TL130 Format: PDF Manual Language: English Takeuchi TL130 Service Manual - 754 Pages Takeuchi TL130 Service Manual – 158 Pages Parts Manual – 495 Pages Engine Guide for TL130 4TNE98-TBL – 118 Pages For all relevant S/N Manual describes operation, repair and maintenance of the loader, as well as safety instructions that you should follow. The Takeuchi TL130 guide is intended for maintenance and explains the machine dismantling and assembly, inspection and maintenance procedures, maintenance benchmarks, troubleshooting and overview Etc. Please use this Takeuchi Guide for Loader TL130 as a reference in service activities to improve maintenance techniques. Note that the contents and diagrams in this manual may not exactly match your computer. Items or diagrams contained in the manual are subject to change without notice due to design modifications, etc. Always store takeuchi loader instructions near your hand, preferably on the machine itself. When transferring ownership of this machine, be sure to provide operating instructions to the next owner. Table of contents of the operating instructions TL130: Check every 2000 hours (1) Flushing and maintenance of the coolant path of the Throat and water water range will accumulate in the cooling system during many hours of operation. This reduces the cooling effect of the engine. Oil coolers (attached to turbocharged engines and some of the naturally suction engines) rapidly deteriorate lubricating oil. Cleaning and maintenance of the following parts are necessary in accordance with the exchange of cooling water. Parts of cooling system: radiator, cooling water pump, thermostat, cylinder block, cylinder head, oil cooler. (2) Inspection and maintenance of fuel line and coolant water pipe Regularly check the rubber hoses of the fuel and cooling water systems. If it is cracked or degraded, replace them with new ones. Replace rubber hoses at least every 2 years, even if 2000 hours do not arrive. (3) Lapping of the suction/exhaust valve seat Adjustment is necessary to maintain proper contact between the valves and the seats. See Chapter 4.2.6. (4) Setting the fuel injection time / Checking and adjusting the injection pump Fuel injection pump Fuel injection timing and fuel injection pump shall be set so that engine power can become the best condition. As regards the control and adjustment of the fuel pump, it is based on the service manual mp pump of separate volume. The timing of fuel injection shall be adjusted as follows. For an engine receiving an MP fuel injection pump, the fuel injection angle i (note) shall be adjusted to set the fuel injection time.
