Mute Cabin

.....

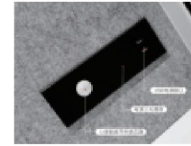

Create your dream space

Provide employees with a modern open office acoustic private space for employees to work together and answer private calls. Based on the premise that a healthier and happier working environment will bring higher productivity, mini pods promote this way of working in the workplace.

In the high-tech hum of modern working environments, dedicated quiet spaces are essential. Sometimes you only need one person. Whether you need a separate space for private conversations or highly focused work, modern workspaces rarely provide convenience for this, and place more emphasis on open collaboration and social areas, rather than a quiet, uninterrupted personal space for work. Drawing on the rich design traditions of California, the residential series creates iconic walls in the workplace and provides a peaceful sanctuary.

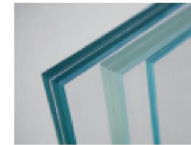

**INDEPENDENT
THINKING SPACE**

智能人体感应开关
Intelligent human body sensor switch

基于红外技术自动控制产品,红外线人体感应开关,120°扇形感应区域,自动控制灯具开关。

Automatic control products based on infrared technology, infrared human body sensor switch, 120° fan-shaped sensing area, automatically control the switch of lamps and lanterns.

隔音夹胶玻璃
Laminated glass

6+6夹胶隔音玻璃的薄膜具有对声波的阻尼功能,PVB夹胶隔音玻璃能有效地抑制隔音效果。

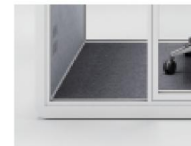

The film of 6+6 laminated sound insulation glass has the function of damping sound waves, and PVB laminated sound insulation glass can effectively suppress the sound insulation effect.

智能通风
Smart ventilation

迷宫式设计的低噪声给排新风系统,减少舱室内外声交互的同时,以三分分钟运行效率更新舱室空气。

Labyrinth design of low-noise fresh air supply and exhaust system can reduce the sound interaction inside and outside the cabin, and update the cabin air with three minutes operation efficiency.

模块地毯
Modular mat

非硫化丁基橡胶应用于模块地毯底衬,胶棉PE短纤维编织面,满足于舱室不吸潮、抗霉变、易清洁维护物料需求。

Non-sulfurized butyl rubber is applied to the base lining of the module carpet, and the PE staple fiber woven surface is glued to meet the requirements of non-moisture absorption, mildew resistance, and easy cleaning and maintenance materials in the cabin.

智能控制电源
Intelligent control of power

适配100-240V/50-60Hz和12V-USB电源供应系统,符合舱内外主流设备器材和能源环境使用。

It adapts to 100-240V / 50-60Hz and 12v-usb power supply system, which conforms to the mainstream equipment and energy environment inside and outside the cabin.

感应照明
Induction lighting

标配150lx光照满足常态使用需求,舱室4000K自然光色温LED中央照明系统,专业光照诉求舱内配置可扩展电源。

The standard 150lx lighting can meet the normal use requirements. The cabin has a 4000K natural light color temperature led central lighting system. The cabin is equipped with an expandable power supply.

可移动的静音盒子

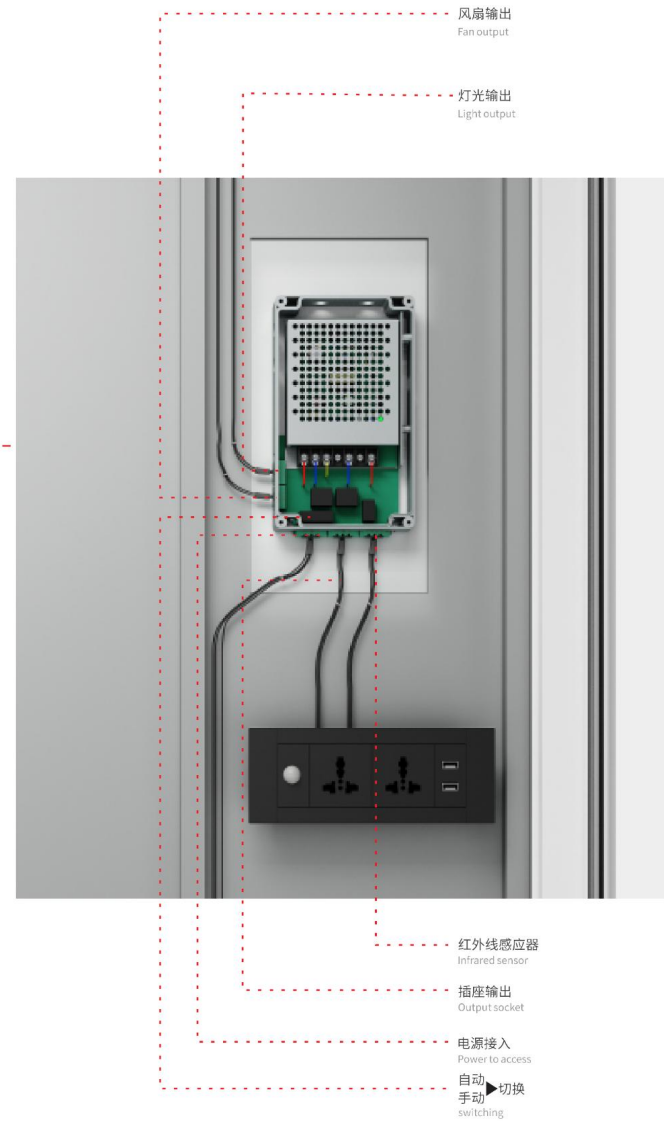

通过调整支撑脚的高低,让球形金属万向轮着地,在平整地面上实现移动功能,让其跟随空间布局的变化而变换位置。

Removable silet box

By adjusting the height of the support feet so that the spherical metal gimbal hits the ground, On the flat ground to realize the movement function, let it follow the spatial layout changes and change position.
