First Touch Football 2020 (also known as FTS 20) is one of the most popular android football games. It's the last part of the game since 2019. In this article, a link to the download of First Touch Football 2020 will be provided along with the installation guide for the game. FTS 2020 comes with improved graphics and updated squads. The interface in the game has also been modified to support a better layout. The layout now supports the best menu and good control buttons in the game. MOD to the game ensures that you get unlimited coins to make player transfers, buy custom kits and develop the club. One of the main advantages of this game is its size; With very good graphics, it has a size 270MB, which is significantly small compared to other mobile football games. GAME DETAILSName: First Touch Football 2020Developer: X2 GamesSupported Android version: Android 4.0Mode: OfflineSize: 280 MBPrice: FreeFEATURES OF FTS 20FTS 2020 is an improved version of the previous FTC game. As a result, it has many interesting features. Below are the features of the first touch football 2020.Soccer balls have now been updated with current design and textures. Unlimited coins to buy kits, stadium upgrades, player purchases and development teams. Improved and improved button controls. The graphics have been updated to have a more realistic gaming experience. New tracklists and songs for the fun of the game. The leagues have been updated with new teams. New leagues have also been added to the game.Commentary and in-game tactics and strategies are more realistic. Internationally, the 2018 World Cup teams such as Nigeria, France, Croatia, Sweden, England and many others are represented. FTS 20 GAME MODESFirst Touch Football 2020 has a lot of interesting content that keeps gamers addicted for hours. FTS 20 game modes are some of the best you can find in an Android football game. Below are the game modes, explained in detail. FAST MATCHThe fast match mode allows you to play a normal exhibition game with any team in the game. You can choose the league and then choose the team in that league to play or play against. There are several leagues and dozens of teams in this mode. DOWNLOAD: FTS 19 (First Touch Soccer 2019)TOURNAMENT MODEThe tournament mode gives you the opportunity to play in any major tournament of your choice. Tournaments include: English Premier League, La Liga, Serie A, World Cup, Africa Cup, Copa America, Asian Cup, European Cup and numerous leagues and cup competitions around the world. There's a lot to play for. STAR PLAYER MODEThis mode allows you to use a specific player only during a match. You can dominate the attack, control the show from the midfield, form a solid rock in defense or block the opponent's chances from the goal. It all depends on your preferences. Control of star players like Cristiano Ronaldo, Lionel Messi, Kylian Mbappe, Virgil van Dijk, Sadio Mane and many many MODEFTS 20 also gives the user the opportunity to master game management and tactics through training mode. This mode enhances your ability to understand the mechanics of the game by learning the right skills and techniques of the game. Please note that you can only use one team in training mode. HOW TO INSTALL FIRST TOUCH SOCCER 2020In a total first touch football 2020 easy and fast. Here are the full procedures: STEP 1 Download the game here and download The Archive Pro here. STEP 2Install Archiver Pro first. It is a tool that extracts the FTS 2020 postal file. STEP 3Locate FTS 20 mail file you downloaded, open the mail file using the Application Arciver Pro we downloaded. Remove it anywhere on your home storage. If you are not asked to remove it, then skip this step. STEP 4After the file is retrieved, there will be two folders and a file: the data folder, the OBB folder, and the APK file. STEP 5Click folder, whose name is OBB, then long click on the folder that appears. Copy the folder on Android. This can be on your internal storage device or memory card. This depends on the preferred storage tool. STEP 6Repeat Step 4 and 5, but instead of copying the OBB folder, click on the folder whose name is DATA. Long click the folder that appears next to you and copy it on Android data. This should be in the storages you used in Step 5.DOWNLOAD: First Touch Soccer 2018 (FTS 18)STEP 7Destos of your mobile data or Wi-Fi. Go back to the First Touch soccer 20 folder you downloaded earlier, open the folder and click on the APK file. Give permission to the installer and start installing. You should have enough memory on your device to complete this step. STEP 8Run and enjoy the first touch football 2020. Please note that you must copy the OBB file to the OBB folder and the data file to the data folder before installing the APK. HOW CHANGE GAME LANGUAGE IN FTC 2020After installing the first touch of football 20, you will notice that the default language of the game is Portuguese. Don't panic if it's not a language you understand. It's easy to change the language of FTS 20 games. STEP 1Open fts 20 APK file, which we have installed in the above steps. Once this is done downloading, click on the far right menu that has an icon that looks like an outfit. STEP 2In the current fts 20 settings menu, select the option that is at the bottom left to the bottom left of the screen. It's an advance setup or it would say something different if it's in a different language. Step 3A will have a new menu with four tabs. Click on the lowest tab and the other menu will show up. The first option is the language option. Keep switching between languages until you choose the right language. You can also use the settings menu to adjust the complexity match length, camera viewing angle, weather and control. So I advise you to customize the FTS 20 to your liking.
