# FLUENT FUTURES – ROMA ENGLISH LANGUAGE PROGRAMME

Fluent Futures is a unique three-week journey in Ireland where Roma students grow fluent in English. For Roma students, becoming fluent in English means gaining access to new worlds: of knowledge, confidence, and global connection. The programme builds these bridges by offering intensive, communication-focused training and cultural immersion in Ireland.

Fluent Futures was created for Roma students whose voices deserve to be heard — confidently, clearly, and globally. In Ireland, they learn not only English but courage: the courage to connect, to tell their stories, and to think beyond borders.
