ONET Luxembourg is entering the security market with a new subsidiary

On Monday, in the aims of expanding its development in the Grand Duchy, the cleaning specialist ONET announced the creation of a new subsidiary specializing in human security.

ONET Security Luxembourg, the newest member of the 42-year-old international group in the Grand Duchy, will open its doors in the Gasperich district next to the headquarters of the cleaning company.

It will offer security operations (fixed and mobile security, events, fire) throughout Luxembourg.

ONET is keen to establish its place in this competitive sector

The company is planning to recruit several hundred employees over the next three years, in order to offer safety and security solutions tailored to the demands of its partners.

"Our growth objectives in Luxembourg have led us to look for innovative and efficient services which meet the security needs of companies in the Grand Duchy. Broadly developed around the major companies, we are counting on the ONET network to roll out ONET Security against well-established competition." Said Pascal Rogé, CEO of ONET Luxembourg.

The new subsidiary will also benefit from the group's know-how in human and electronic security, whose expertise has been finely honed in France over a period of more than 40 years with 4,500 employees in 50 branches.

ONET Security Luxembourg will begin its activity at the beginning of 2020.
