| | | <input checked="" type="checkbox"/> Any other request from Funders and/or Insurers |

The lists above are provided as a guide only, and will vary according to the project and technology being deployed.

The purpose of the Desk Top Review Service, is to enable Allied to review and evidence the information that is available and provided from the Project Developer to reach a position that funding and/or Project guarantees would be available.

For Technology Manufacturers the Desk Top Service, is to enable them to demonstrate that they can offer their technology knowing that the project developer could obtain funding with a project guarantee, guaranteeing their operational availability.
