About Alexander Paramonov

There is a man alive today named *Alexander Nikolaevich Paramonov*. He is Russian and lives in Russia. He reportedly inherited – through a spiritual event – an *astronomical* amount of wealth, including, but not limited to, over *five billion* metric tons of gold (which is being stored in underground vaults, protected by extraordinary technology). He also claims to have inherited control over, and ownership of, the entire world financial system. He has consolidated his wealth and assets in (at least) two organizations: the *Sovereign International Treasury Monetary One* ("M1"); and the *World Sovereign Bank of the Order of Hospitallers* ("WSBOH").

But Alexander is not using his vast wealth to make more money (as most financial funds do). He is using that wealth to reshape the world we live in for the better, to create a much better world for us. A *Bright New World* in which justice, truth, happiness and abundance prevail; and in which spiritual growth for all of humanity can occur.

Alexander is a spiritual and worldly leader. He speaks prophetically about the future, and with knowledge about the past and on a range of subjects. He consistently speaks and acts in ways which indicate: (i) that he is taking responsibility for the state and fate of the world and humanity; and (ii) that he has strong concern for the welfare of humanity.

About the need for a new, gold backed financial system

Alexander also speaks with strong indignation about the "powers-that-be" (the super rich and powerful people who control nations from behind the scenes), who are attempting to: corrupt and pervert humanity; instigate a third world nuclear war and greatly reduce the human population. Alexander refers to them as the "enemies of mankind."

He has stated that fundamentally they (the enemies of mankind) really have just one tool which enables them to control humanity. And that is their control over our financial system. Therefore, it is right in that one area – that of the world financial system – that Alexander Paramonov has chosen to fight. He has developed a new, gold backed financial system for the

whole world which the Satanic powers-that-be cannot control, and which will replace the current (old), corrupt fiat money system. After about five years of work, in October of 2025, that new system was finally completed (or largely completed).

The Sunrise Program

The implementation of this new gold backed financial system is one part of a larger, comprehensive program called the *Sunrise Program,* which Alexander has created to transform our world for the better, to create the *Bright New World* mentioned above. (There is much more to say about the *Sunrise Program.* A more detailed discussion of it can be read in an article titled *About the Sunrise Program*, which can be found on the home page of the website www.firstamendmentcafe.com.)

The powers-that-be previously gained unauthorized access to enormous, ancient funds which belonged to the Divine Powers; and in about 2021 Alexander cut off that access

One part of Alexander Paramonov's plan to create a new, gold backed financial system involved him cutting off access to certain exceedingly large ancient funds which the powers-that-be had gained (limited) access to and were using to empower their fiat currency financial system (the current financial system). Alexander states that these ancient funds were held by the White Spiritual Boy Corporation and that they always belonged to the Divine Powers. But the Satanic powers-that-be had nonetheless gained limited access to these funds.

It was in about 2021 that Alexander Paramonov cut off the access to these immense funds (that the powers-that-be had) and transferred all of them into his new financial organizations, M1 and (then later also to) the WSBOH. Access codes were also changed. He issued formal decrees that all such access that the powers-that-be had had previously to these funds had been cut off. Copies of these decrees were sent by him to central banks and other financial entities in numerous countries around the world. Alexander subsequently stated (in 2022), that consequently all these fiat financial systems – including but not limited to: Washington, D.C., the "City of London," Wall Street, Switzerland, the Vatican bank, Standard Chartered Bank, Industrial and Commercial Bank of China Limited (ICBC), Barclays Bank, Hong Kong and Shanghai Banking Corporation (HSBC), Deutsche Bank, Bank of America, and Wells Fargo – were already bankrupt.[1]

Sovereign Cooperatives

One component of the *Sunrise Program* involves *Sovereign Cooperatives*. Any group of people anywhere in the world can apply to M1 to create a *Sovereign Cooperative*, which is organized under international law, and is therefore sovereign and not subject to taxation nor control by state and federal governments. Each of these *Sovereign Cooperatives* has a treasury which gets funded with a very large sum of the new, gold backed money. When the current (old)

corrupt fiat based money system collapses (which will be very soon) the cooperatives (working in coordination with M1) will use that money to fund all kinds of projects to benefit and help humanity, and to rebuild society as a much better place. Each *Sovereign Cooperative* also has its own bank which will be authorized to issue gold backed currency. There are about 200 of these *Sovereign Cooperatives* in various countries around the world.

These *Sovereign Cooperatives* (in general) also provide each of their members with a monthly stipend, denominated in gold backed money. And (in general) each member will also receive enough gold backed money to buy a home for him and his family.

Once a *Sovereign Cooperative* gets properly established, its members are expected to contribute to the creation of the *Bright New World*. But each member can do so with whatever skills, talents, experiences or abilities he has.

Thus, these cooperatives will be instrumental in helping to create a wonderful, new Golden Age.

About the *Bright New World*

Alexander Paramonov's new gold backed financial system will soon replace the old fiat currency systems and then the powers-that-be will lose their power and control over humanity. And what will then happen to the powers-that-be (and their underlings who are helping to wage war against humanity)? Alexander has warned (certain groups of) them that they must change their ways and repent. He also warned that if they do not do so they may find themselves imprisoned in a place like Guantanamo Bay, if they will be lucky enough to even get in there.[2]

The *Bright New World* (which is now being manifested) will be far superior to our current world. And it has been reported that people's life spans will be greatly increased.[3]

Question: And what must one do to enter into this *Bright New World*?

Answer: If one wishes to enter the *Bright New World* one should:

a) Quickly join a *Sovereign Cooperative*;[4] and then

b) Find a way to help, to contribute towards the creation of this excellent new world.

[4] I, Vincent Gillespie, am the Chairman of the Board of Directors of the *Freedom for All Consumer Cooperative*, which is based in New Hampshire, USA. You could join my co-op. (Email me at explodingbee@gmail.com.)

Or else, if you are not in the USA, find a *Sovereign Cooperative* in your country, if there is one. (If you are having trouble doing so you could ask M1 by emailing them at secretary@monetaryone.org.) (Note: You actually don't have to live in the same country as that of a *Sovereign Cooperative* in order to be a member of it. But it would be preferable to be in the same country because that way if there comes a need to do anything in person it would be easier to do so.)

Or else get a group of at least 5-10 people together and apply to M1 to start your own *Sovereign Cooperative*.

Why join a *Sovereign Cooperative*? As I understand it, there is going to be a difficult transition period when the current financial system breaks down (which will happen very soon). And, as I understand it, due (in part) to the nature of events that will be happening and circumstances that will be present, most people will (in essence) be swept away and into lower worlds of suffering. But the members of each *Sovereign Cooperative* will receive (in essence) a steadying hand, a lifeline, which will help them and increase their chances of successfully making it through to the *Bright New World*. (The costs of joining a cooperative are modest.[5])

About finding a way to contribute: In addition to joining a *Sovereign Cooperative* one should find a way to contribute to the building of the *Bright New World*. As Alexander stated in the video titled *2025 – The White King is Coming*[6] (at time stamps 46:00-46:38):

> "(46:00) I wish to assure everyone that I will carry this title with honor. And I will make every effort to build a new world in the Cone (Law) of Creation, where human life will truly be the highest value, and human rights will become the basis of the Rule of Law. (46:16) A world where there will be no poverty, wars, inequalities, or discrimination. (46:21) **I expect support and help from all people on Earth who want to make this world a better place for themselves and future generations to live.** (46:29) I declare that the Doors of the King of Kings are open to everyone who adheres to our noble goals, honors universal values, and comes to form synergy for the realization of common bright goals."

By taking the above two steps (joining a *Sovereign Cooperative* and finding a way to contribute) one will be participating in the *Sunrise Program* and be on a track leading to entrance into the *Bright New World*.

[5] The costs of being a member of a *Sovereign Cooperative* are modest. In my cooperative, the *Freedom for All Consumer Cooperative*, there is a $10 nonrefundable application fee to join. And one is expected to participate in video conference meetings (via Zoom) when we have them. I estimate that we have been having such meetings in my cooperative on average about once per month and that the meetings last an average of maybe an hour and 15 minutes or so (but the frequency and lengths of the meetings could vary). One will have to supply basic identifying information, including an image of one's driver's license (or other state or federal ID), one's address, email address, name, date of birth and phone number. (One need not provide a Social Security number.) (One should also find a way to contribute, as discussed above.) Those are all the costs that I can think of.

I have been told that this is because the websites associated with M1 and Alexander Paramonov were being subjected to many cyber attacks and so they are being moved to other servers. Conclusion

I invite the reader to step out of the dystopian world that most of humanity is living in at this time wherein the forces of evil seem to have the upper hand most everywhere; and to step onto a track leading to the *Bright New World* which is being built right now; a world in which goodness, abundance, justice, happiness and truth will prevail.
