No required registration. No login required. You're here. This area is for newbies who don't know how to fight and are new to the game. No boss rush; take your time and enjoy the experience. Space Pirates and Zombies will always be here as an online game. We will make as many updates as we can, but there will not be any offline server for Space Pirates and Zombies. We are currently working on fixing the login system, so we are waiting for that. If you have any questions, feel free to contact us. Please be kind enough to take in consideration that we are still in the development process. This means that we will always be trying to improve the game and listening to everyone. Thank you for your understanding! We hope you like the game and would love to hear your feedback. Facebook: YouTube: Space Pirates and Zombies is a single player, online, action-adventure, tower defense, puzzle, shooter game. The game takes place in the year 2081. Humanity has become obsessed with space exploration and colonization, and their government has officially declared war on an alien race that has been attacking and terrorizing them for years. After a long struggle, the space exploration ship "Portal" was able to locate the alien race's home planet. To stop them from attacking again, the Earth is going to destroy their home planet. The player controls the main character, Nova Petrovich, who is on a quest to stop the invasion. All Story Details The game's story revolves around the player-character, Nova, as he attempts to stop an alien invasion. The story is told using text and static cut-scenes. 520fdb1ae7
