Hold on! Wua! Merlin! Merlin! Faster, Merlin, magic! Skinny little guy about 12. He's just a little grasshopper. In Merlin's vision, Arthur Pendragon (often called Vart or King Arthur) is the protagonist of Disney's 1963 animated feature film Sword in Stone. He is an orphan boy who becomes king of England thanks to his ability to pull the legendary sword out of stone. The contents of the show Von Origin Knight Sir Hector found Arthur when he was a child, and took him in. Almost everyone calls him Warth, not his name, Arthur. In fact, his real name is rarely mentioned throughout the film (and his last name, Pendragon, not at all), once Wart himself, and then when he is revealed as the rightful king of England. The physical appearance of Arthur is a 12-year-old orphan boy with blond hair. Arthur's personality is very skinny and clumsy, but also friendly and polite. He has a rich imagination and dreams of becoming a knight and with adventures like riding white stallions and killing dragons, griffins and human-eating giants. However, since he is an orphan, he knows that most of all he can hope to become the squire of his boorish adoptive brother, Sir Kay. He has a universally kind heart, and he quickly comes to the trust of Merlin, although he is (understandably) shy to do so at first glance. He is also forgiving, as he has no ill will towards Archimedes, despite finding the owl very annoying, and as Sir Hector begs him to forgive him for being abusive parents and Arthur responds by imploring him not to pursue Subject. The appearance of the Sword in a stone wart accompanies his adopted brother, Kay, on the hunt. Accidentally distracting Kay, Wart goes for the lost arrow Kay and finds himself in the house of Merlin, a powerful wizard. Enjoying tea with Merlin, Merlin tells Varta about the value of education and assigns himself to the tutor of Varta. Wart returns to Sir Hector's castle with Merlin and goes to the kitchen as punishment for Sir Hector's troubles. Sir Pellinor, a friend of Sir Hector,come with news of the tournament, with the English crown as a prize, Sir Hector decides that Kay can be knighted in time to take part. Hector also appoints Warthog as Kay's future squire for the tournament, which will be held in London. The next day, Vart accompanies Merlin in his first lesson. Merlin turns them both into fish and, at first, everything goes smoothly. The wart is soon haunted by a large pike and manages to outsmart the pike in the first place. Fortunately, Varta rescued the owl Merlin Archimedes. Adventure teaches Wart the importance of the brain over muscles. When Beard turns back, he rushes into the kitchen, where Hector gives him six flaws; 3 for being late, and 3 after telling the true story of his lesson. Later, Wart is forced to clean the entire kitchen as a result of his punishment. Merlin oozes dishes to wash and sneaks warts to another lesson. This time, a lesson about gravity and (in an unexpected twist) male-female relationship; for this lesson, Vart turns into a squirrel and meets a female squirrel who wants him to be an assistant. As Beard tries to escape the love squirrel, he is threatened by being eaten by a wolf. The wart is saved thanks to the female squirrel, but then it turns back into a human boy. While he tries to explain, the female squirrel is heartbroken. Back at the castle, Sir Hector begins to reproach Merlin for using what he considers black magic in the kitchen. Beard tries to protect Merlin, but Hector piles more flaws on the boy and finally punishes him as cancelling his chances of making the trip to London and making the boy's invisible fiance, Hobbs, squire Kay in Varte's place. Merlin sees Varta's frustration and apologizes, but notes that Vart can still do something about himself through education. Merlin then takes the time to explain different concepts about how the world works, but Wart becomes so confused that Archimedes takes on Wart's education. Upon learning that Wart is illiterate, Archimedes teaches Beard to read and write. During the break, Merlin takes time to demonstrate the model of the aircraft. Although the demonstration doesn't work, Wart is impressed anyway and talks about his dream of flying to Merlin. While Wart is talking, Merlin turns him into a sparrow. Beard then goes flying with Archimedes. The flight goes well at first, as Beard turns out to be natural when flying, but, during the flight, Wart is chased by a hawk and, escaping, eventually falls through the chimney of Madame Mim, Merlin's enemy. Although Madame Mim tries to show Varta that her magic, which is self-serving, is better than that of Merlin, Wart disagrees, and so Madame Mim turns into a cat and tries to eat a warther. Merlin's student is saved by Merlin's intervention, and Varth later observes the Wizard's duel between the two wizards. As a result, Wart learns the value of knowledge and wisdom as Merlin won to outsmart Mim. Arthur as Squire. At Christmas, Wart is reinstated as Kay's squire as a necessity (as Hobbs came down with mumps). Wart is pleased, as he feels that this is his only opportunity to move forward. Merlin is outraged that Wart still prefers war games rather than education, and is therefore a master of teleporting himself (quite unintentionally) in 20th-century Bermuda. On New Year's Day, Wart accompanies Sir Hector and newly knighted Kay to the tournament. Everything goes smoothly when Wart realizes that he forgot Kay's sword in the hotel. Trying to find a replacement, Wart pulls out a magic sword from the stone, which was in the old cemetery. When Beard brings a sword, he is immediately recognized as a legendary sword in stone, which only has to be pulled by the rightful king of England. All the knights in the tournament force Vart to repeat the process, but before he can do it, Kay, Sir Hector and several other knights try to pull him out, under the reasoning that everyone can pull him out a second time (which is proven to be false). Pellinor and a knight named Sir Bart stop the other knights and allow Vart to pull out the sword. He does it successfully, and everyone bows to him as the new King of England. Sir Hector takes the opportunity to ask Beard for forgiveness, which, according to Warth, is not necessary. The crowd asks for the boy's name, and Sir Hector almost calls the boy a beard before correcting himself and calling the boy Arthur for the first time. King Arthur. Time passes, and Wart, now crowned King Arthur, feels unprepared for the responsibility for the rule of the country. With archimedes, he tries to escape, but every exit is blocked by jubilant crowds. Merlin suddenly returns from Bermuda and is glad to see that Wart is now King Arthur and tells how famous the boy will be in the future. On Rent Day, where Mickey asks him to give him money, and Merlin (next to Arthur) offers him money if he goes to get Arthur's sword.
