Thank You World-The Statler Brothers
Author:Don Reid and Lew DeWitt from www.traditionalmusic.co.uk

G
I wanna thank you world for letting me belong
C Am
I'm just 1/4 of one small group that sings your songs
G C
I know that there are others who have served in bigger ways
Am D7
All I can do is sing your music all my days

G
It makes me grateful just to know to know that I can be
C Am
Unique and fill a spot beside the other three
G Em
Without a place here in this world I know that I'd be lost
C D7 G
Thank you world for letting me contribute to the cause

I may not ever stand like Stonewall Jackson stood
C Am
But standing on that stage to me is just as good
G C
Now I may never be a heavy or a break
Am D7
But you've given me the strength the strength to pull my way

G
Oh for the part I sing is truly part of me
C Am
And it does its part to lock the other parts in key
G Em
And it does its part to hold hold that sweet applause
C D7 G
Thank you world for letting me contribute to the cause

Oh world you've given me a place that I call mine
C Am
Though I've stepped out of it and I've gotten out of line
G C
Sometimes I sing the music slightly out of key
Am D7
And I know I make it harder for the other three

G
I've always done my part the very best I could
C Am
And its done the other guys a world of good
G Em
You've let me sing your praises world and about your faults
C D7 G
Thank you world for letting me contribute to the cause

It makes me grateful just to know to know that all I can be
C Am
Unique and fill a spot beside the other three
G Em
Without a place here in this world I know that I'd be lost
C D7 G
Thank you world for letting me contribute to the cause

Without a place here in this world I know that I'd be lost
C D7 G
Thank you world for letting me contribute to the cause

Thank you world for letting me contribute to the cause
