Description: Welcome to Mid Valley, a modern residential district built along a river, where the roads are named after the most successful pastime in our country. Move in and do the things you want to do! Find your way around the city and check out the different shops, galleries, restaurants and events. Set up your home, fill it with all your possessions, buy some furniture, a car and decorate your house. Explore the neighboring districts and enjoy a day out at one of the attractions. Help R3dux in his journey around the city and explore the mysteries of the city. Features: Multiplayer mode: You can create a multiplayer room and invite your friends to play together. Challenge mode: Start the game and be taken to the last scene, complete the scene and then start the level again. Regeneration: After a short resting time the game can start again from the last completed level. Random scene generation: New levels are generated with all or selected objects from the scene and position of those objects. Hint system: When the game is too easy, 520fdb1ae7
