Schwinn high timber step-thru 24

The best bikes/ beginners, fitness, hybrid, mountain, old people, teenagers you get the best deals and we can get a commission. Learn more BikeRide works hard to help you find the lowest prices and information about each bike from the widest possible range of sources. BikeRide supports the reader, and sometimes we receive commissions for links you click on. Read BikeRide Privacy Policy finds and shows you the best prices of the bikes you want to buy. Prices are constantly changing and it is impossible to compare them all yourself. We look for prices at more than 120 bike retailers to ensure we find the lowest prices - to save time and money. It's a promise we're behind: If you find a lower price on a bike elsewhere, we'll sell it to you for 10% less. For example, if you find a bike for \$480 that we listed at \$500, we'll offer you to buy it for \$432 through BikeRide. The bike should be the same color and size, sold in the US and does not include the use of a coupon. If you find a lower price, send us an email to with price documentation. We are committed to making sure that the cost of a bike does not make you ride a bike! Beginners, Fitness, Hybrid, Mountain, Seniors, Teens We read all expert and user comments on Schwinn high wood. In short, this is what cyclists think. Riders 5' to 5'3 felt the Haute Wood was a relaxed fit. Some owners found the assembly of their High Wood to be a demolition job. A number of owners found that their gears changed easily. A fan of the light purple color found it really attractive. More than one Alta Fusta owner described the quality of the bike ride as smooth. Smaller riders found that the extent of the brake lever was a bit of a stretch. The vinyl chair used to be a pain in the back. Between 35 and 40 pounds, Haute Wood is more ebony than balsa. It's heavy. High woods sometimes came scratched. A tall wood arrived without a front wheel skewer, making it unending. The front wheel bearings were falling loose from a new High Timber. Owners said old-school threaded headphones would not tighten. Numerous owners reported a poor change from the Shimano Tourney/Revoshift gripshift combination. With a step-by-step steel frame, A rigid steel fork, an easy-to-maintain single-speed driving line, powerful caliper brakes and well-troddized nylon tires on the Schwinn High Timber 24 (Girls) (2018) at the price of Rs.9,500 (as on March 3, 2020), is an ideal bike for pre-teen girls to ride around the city. Prices and specifications/components subject to change by the brand, without due notice. Are you interested in buying? Talk to our expert. Bold riding for children, teenagers and adult women alike.
