#datadayscle

Join us in our fifth annual Data Days CLE, the region's only conference focused around accessible data and civic technology for community impact. Data Days CLE will focus on local, innovative, uses of data across a variety of sectors and industries, all with a focus on how data is used for action in the impact areas of social justice, research, and policy.

Presented by The Cleveland Foundation and the Cleveland Public Library, we're seeking mission driven partners who want to raise awareness of their own brands, data uses, and services, and in doing so, help build a data-driven culture in Northeast Ohio.

Join us, become a sponsor today!

## VENDORS

Data Days CLE has engaged hundreds of individuals in the Greater Cleveland area over the last two years. All of these individuals are looking to improve their data usage skills, and primarily for organizational and impact purposes. This makes Data Days CLE one of the best opportunities to promote your data related tools and skills in Greater Cleveland. Our \$500 vendor opportunity gets you close-up access to our audience, including:

- A dedicated vendor booth
- Recognition on our event website
- Two registrations, meals included
- Access to our event reception
