MAKING YOUR BUSINESS A COVID-19 SAFE WORKPLACE

Supporting the fight against COVID-19

We're big on our community and proud to support our people, so here at Ripple, we're committed to standing true to our nature by putting our award-winning UK design Studios and manufacturing facilities in supporting the fight against COVID-19.

As the availability of key products such as sneeze guards and sanitiser units has begun to dwindle, it's only right that we do our bit to ease the strain to help the nation's shops, workplaces and public spaces become safer once again. We're producing innovative solutions that are made to not only deal with the immediate threat of contamination but to offer a long-term solution that supports a new way of living post-COVID-19, meaning that your investment isn't lost.

All bulk orders from our range of protection/hygiene solutions will include a free sign artwork pack to print and use within your business, to help reinforce social distancing and other rules around interactions and hygiene, helping to create a safer working environment.

COUNTER SNEEZE SHIELDS

ripple

Display Solutions
& Retail Interiors

NHS

MADE IN
BRITAIN

A PREMIUM SOLUTION FOR YOUR BUSINESS.

Our Countertop Sneeze Shields are expertly designed and manufactured on-site, ensuring a premium quality construction with intuitive features such as versatile mounting options that allow the shield to be secured on a range of countertop surfaces, and a flip-able screen which dependant on its orientation either leaves a gap underneath the screen or provides a flush fitting on the surface.

Either option offers a sturdy and long-lasting solution in protecting both customers and staff, with no need for professional installation.

Made from powder coated mild steel, with 3 mm high impact acrylic (or 3mm clear PETG depending on availability), the Ripple Sneeze Shield is available in a range of sizes to perfectly suit your requirements.

FEATURES

- Premium Quality British Manufacturing
- Great value, superior long term solution
- 3mm High Impact Acrylic Sheet
- Unique Sturdy Clamp Mount System
- Optional universal flat plate mount
- Flip-able screen to create gap underneath
- DIY Installation
- Available in 600mm, 750mm & 900mm widths
- 800mm Height when panel is flush
- 905mm Height when panel is flipped

MADE IN
BRITAIN

SAFEGUARDING YOUR OFFICE BASED STAFF.

Getting back to work can be a daunting thought, months have been spent avoiding others and the idea of heading into shared office spaces will prove challenging for most. The fallout from COVID-19 will mean that dynamics in these shared spaces will have to shift.

We've considered these dynamics and developed a range of desktop sneeze shields perfect for the modern office environment, focusing on creating flexible and hygienic individual working spaces.

We're bridging the gap between safety, affordability, durability and also longevity with dual-purpose products designed for the post-COVID-19 lifestyle too.

FEATURES

- Premium Quality British Manufacturing
- Great value, superior long term solution for your office
- 6mm Clear Toughened Glass with Polished Edges
- Smart Satin Polished Stainless Steel Effect Clamps
- 600mm or 1200mm wide x 600mm high
- Configure as a single piece, L, C or Z layout
- DIY Installation

DESIGNED FOR RETAIL AND THE WORKPLACE.

We know the landscape of public places is going to change dramatically and it's important that businesses plan to meet the government requirements in making public spaces, safe places to be once again.

Our Sanitiser Stations have been designed with both retail and the workplace in mind, and we've created a sleek solution that will blend seamlessly into your environment with custom branding and signage options available as standard.

The removable, double-sided foamex graphics panel can be used to not only reinforce important hygiene guidelines but also offers a clever additional advertising solution.

FEATURES

- Premium quality British manufacturing.
- Great value, superior long term solution for your business.
- Touch-free auto dispensing units.
- Available now with pump bottle, gel and bracket.
- Large branded foamex backing for messaging or advertising.
- Compact yet sturdy, can be placed anywhere promoting use.
- High quality steel construction with resilient Anti-microbial powder coat finish
