¹ The actual driving range may greatly vary based on driving behavior, charging habits, speed, payload, terrain, accessories and weather conditions.
2 Payload excludes the driver (75 kg) and includes carge options. The total permissible carge weight must not be exceeded.
3 Battery pack capacity may naturally degrade over time and with use, which will affect vehicle overall performance.
4 Charging times are approximate and require Type 2 compatible charging stations. Charging losses of 20% have been included in the calculation.
