Note: sold by only two resellers, so check if you can find your reseller's name; it is easy to spot as both resellers use the same web site; They are also the only resellers that provided the used USB cable so I hope I could get some feedbacks from you regarding it; Original price, brand: \$50; With USB Cable: \$30; Serial Cable Price: \$10; Total Price: \$60; No. of units on our website: 0.0; Buy at :www.web-shop.com; AliExpress: No resaler; Buy at: www.us-bros.com; AliExpress: No resaler; Buy at: www.usb-cable.com; AliExpress: No resaler...Q: WCF RIA Services - Does not contain a definition for 'LoadBehavior' When working with WCF RIA Services, there is a reference to LoadBehavior that doesn't seem to exist. I have read many posts and can't get my particular exception. I am seeing this error: Does not contain a definition for 'LoadBehavior' and no extension method 'LoadBehavior' accepting a first argument of type 'WebViewForAnalysis.Classes.ComplexType' could be found (are you missing a using directive or an assembly reference?) I am building a WCF RIA Services Silverlight application. The app is consumed on a Silverlight client and is hosted in a silverlight app using the cordova shell. Silverlight version is: 5.0.50727.3431 WCF RIA services version is: 1.0.0.6556.14245 System.Data.Services.Client version is: 3.0.0.0 A: I think that the version is older than mine. Try to change it to: 1.1.1.0 I tested it in Visual Studio 2010 and it worked for me. They are pink. They are built by pink-loving technology. "Pink," the new electric bike from Zero Motorcycles, is the first e-bike that has four seats, as opposed to the usual two or three. It's also one of the few electric bikes designed by women. But it is not a traditional e-bike. It's the latest attempt 520fdb1ae7
