Mousebag is a Skellige druid. He was an adviser to King Bran Skellige and queen Calante Sintra. Mousebag's look and character of the edit-change wikicode was a stocky, energetic man with a beard trimmed with a hair broom, clad in a vareous print surrounded by wool-plaid tape. He accompanied the an An Craite delegation to Sintra, including the young Krach, who was one of Princess Peyetta Sintra's suitors. He will help Geralt save the congregation from a wave of magic inadvertently unleashed by the princess. This will mark the beginning of the friendship between the sorcerer and the druid. Sak-a-brush will return to The Press, but will play an important diplomatic role, which leads to his presence in Sintra quite regularly. Later he watched the very young Cirilla, deprived of his parents, with his grandmother Calante de Sintra. He will also take care of him when she spends time at Skellige as a guest. In the Sword of Providence edit-edit Wikicode When it is decided that Siri will marry the prince of the neighboring kingdom of Bruges, he is responsible for protecting her during the journey. Unfortunately, Siri is lost and survives the dangers of the forest only thanks to the intervention of Geralt, who passed in the area, by accident ... or the power of fate. However, despite the strong insistence of Sak-zi-kisis, the sorcerer refuses to take the child and leaves it to his good care as a druid. In something additional edit - edit Wikicode He will be present during the massacre of Sintra by the armies of Nilfgaard and, again, will not be able to protect ziri in the chaos of the environment. A stocky, energetic man with a beard cut from broom hair, and a tall guy with bagpipes on his back, in turn bent his knee next to Crach Craite. Here is the valiant Druid Mousebag, who, like me, is a friend and counselor to King Bran. And this is Dreig Bon Dhu, our famous scaly. Thirty Skellige sailors wait on their side in the yard, shuddering at the hope that beautiful Calante will make at least one appearance in her window. - Last Wish, page? With his locket tightly on his palm, Geralt crawled as fast as he could on the side where Sack-a-souris, still on his knees, no one knew it was a miracle, and not flat on his stomach on the ground, waving a small stick of hawthorn. At the end of his wand was the rat's head. - Last Wish, pages? Wall of the forest, closing highway disappeared, shone all the colors of the rainbow and disappeared. The path was visible again. There was a gray-clad horse with a powerful horseman with a scoundrel beard and a varicose-led seal surrounded by a woolen checkered ribbon. The Witcher edit-edited Wikicode In The Witcher 3: Wild Hunt edit wikicode Record magazine edit - edit wikicode on Skellige, most druids contrast with the stereotype deeply rooted in the continental, this image of an old man with a gray beard and white dress who, bent in front of some sacred oak, will tame the wyverns and dislodge from the house Old friend Geralt, Sak-a-s. With a beard and a filiform figure, Sak-a-Kisils was the leader of Skellige's Druid circle. A adviser to Yarl's Crash Craite on magic and mysticism, he also gave advice in all areas requiring more finesse than the right hook or axe. Known for its stubbornness, Druid was also known for a rare trait about Skellige: the ability to consider all possible consequences before acting. In short, any discussion with Sac-a-souris requires considerable patience. In this light, it is not surprising that Ennefer and Geralt's impulsive and extremely irresponsible attitude to a magical anomaly (including the theft of a priceless artifact in a private room) is in second condition. However, despite the complex nature and sometimes tumultuous relationship with Geralt, Sak-a-Siris agreed to go to Kaer Morchen to protect Tyree from the Wild Hunt troops. If Cerys craite becomes queen of Skellige: Faced with the inability of persuasion and reason, Sak-a-brush was eventually resolved to the use of violence, becoming a formidable adversary. Lugos Ding paid the price when he attacked Sak-a-brush and Geralt. As in the past, the sorcerer and the druid fought side by side. The comic Bag-a-Syris as a young boy in Droga bez powrotu Bag-a-Kisils is the son of Manissa, a witch in the service of Fregenal, who was killed (in self-defense!) by Corinne (geralt's future father). The father of Sak-zi-kisis left Manissa when the future druid was still a young child. Not knowing that the guerrilla killed his mother, the young Sak-a-Siris befriended Corinne and friend Visen. These two led him to a circle of druids in Mayen (Droga-without powrotu). Sak-a-brush, as a young druid in Sdrada Despite the fact that the circle was destroyed, completely because of the conspiracies of the magicians and the king, Sak-a-brush and two other old Druids were invited by the king to the tournament of witches. When this tournament became a massacre for the witches of the Wolf School, Sak-zi-Siris helped Geralt, his old friend, escape (zdrada). Sak-a-brush objected to The Wizards' arguments at the Wizards Council meeting, where he was present, especially when both wanted to treat all children born in the year of the black sun as monsters (Mniejsze zo/The Least Evil). Although Mousebag appears in three of the six graphic novels by Maciej Parovski and Bogus-au Polcha, none of them was based on the story in which he appeared (two of them were based on other stories, while one was a story original to the comic). In his graphic novels, he is younger than in the stories in which he is depicted, and does not yet have a beard. No ties with Skellige are also mentioned, although it is possible that he moved to Skellige after the destruction of the circle in Mayen. Normal games this passage 5 years after the books, it's just a sequel: o Death Mouse bag is actually in the story, I do not know what they wanted to do ...
